

Inclusive Pre-K Program Information

Frederick County Public Schools is offering a unique pre-kindergarten educational program. The Inclusive Pre-K program is in addition to, and different from our regular pre-kindergarten class. Inclusive special education Pre-K classes educate all students using academic standards while implementing Individual Education Programs (IEP) for eligible children who have been identified with a disability. Participation in this program provides opportunities for all students to strengthen their social and academic skills through an inclusive preschool setting.

Inclusive Pre-K Classrooms are available for 3 and 4-year old students. Students must be 3 or 4 by September 1st. Applying for a student to participate as a peer in this program does not guarantee enrollment. Parents must provide transportation to and from school.
