

**Question: What is your plan to effectively represent all students in Frederick County Public Schools K-12?**

Answer: I plan to effectively represent all students in Frederick County Public Schools by building relationships with the individual schools in our district. I will attend community meetings (PTA, SGA, etc) and other community events to learn about the needs of students and the issues of their schools. By doing so, I will be able to further advocate for the students and not only address the various issues that students face to the Board of Education, but to be mindful and very considerate of these issues when voting on legislation.

**Question: Describe how you will manage your time to be able to meet the demands of Board of Education meetings, FCASC meetings, MASC meetings and your own academic and extracurricular demands.**

Answer: Managing my time effectively will be very important and not a difficult task. Being one who is already involved with the FCASC, and the MASC and other various Student Leadership Organizations, meeting the demands of the Board of Education will be simple as I have experience managing the demands of multiple organizations and leadership positions along with my academic priorities at the same time.

**Question: As the Student Member of the Board of Education, what will be your priorities, the policies you might advance, or topics you might wish to discuss?**

Answer: My priorities as Student Member of the Board of Education will be to enhance mental health resources, and making sure students have access to resources that may help improve a students' mental and emotional wellbeing. Additionally, as Student Member of the Board of Education I want to focus on the health and nutrition of students as outlined in Policy 409. Students should have access to nutrition resources, along with health resources including but not limited to (hygiene products, access to medical services and information, etc) Furthermore, I want to work not only with Board of Education as a whole, however with the Racial Equity Committee to ensure that the minority students of FCPS are getting the support and resources that they need and deserve now more than ever in a time of Racial Injustice.

**Question: Legislation is being drafted that could provide voting rights to the SMOB. What steps will you take to ensure that you are fully informed of issues on which you may vote?**

Answer: Along with seeking knowledge and the opinions of the students of FCPS on the issues that are brought to the attention of the board of education. I will be certain that I conduct my own thorough research on the issues I am allowed to vote on whether looking into policies in place that relate to the issue that was brought before the board, or seeking other sources for information related to the issue, and see what has been implemented elsewhere.
