

Technology Repairs & Replacements

Welcome to the FCPS 2021-2022 School year!

Frederick County Public Schools (FCPS) will provide students needing a device at our schools with one. Secondary students will receive a Chromebook and accessories to use at school and at home. Elementary students will leave their FCPS provided devices at school at the end of each day. The use of technology in education is a tool to enhance the learning experience.

We require that the student and the parent/guardian sign an Electronic Device Usage Agreement. For secondary students needing an FCPS provided Chromebook, the device and its accessories will be issued to the student only after the signed agreement is received at the school.

For the 2021-2022 School Year, FCPS will not charge a Technology Fee for student use of an FCPS issued Chromebook. Breakages will incur financial obligations in accordance with FCPS regulations 400-75 and 500-32. If repair for a damaged device incurs a charge, a financial obligation will be issued. The following repair cost structure applies to incidents that occur within a given school year. These same charges will also apply to elementary students who willfully damage a device.

Technology Repairs & Replacements	
<i>Repair Costs</i>	<i>Replacement Costs</i>
Repair incidents within one school year: 1st Incident: \$30 2nd Incident: \$60 3rd Incident: \$120 4th Incident: Full replacement cost Charges will not be issued for devices damaged by fire, flood, or natural disaster.	Chromebook: \$300 Charger: \$30 Case: \$25 *Charges for devices reported as stolen may be exempted upon receipt of a police report.
If a malfunction is determined to be the result of routine equipment usage, there will be no repair charge. This applies to components that fail due to natural product degradation or manufacturer defect. These exceptions require verification by a qualified technician within the Department of Technology Infrastructure.	
NOTE: Charges will not be waived. Full replacement cost of the Chromebook will be charged following the fourth repair incident. The school maintains the right to withhold issuing a Chromebook when repeated mishandling of FCPS property is identified.	
Credit or debit card through School Cash Online is the preferred method of payment for Technology Repairs & Replacements https://frederickcounty.schoolcashionline.com . Check or cash will be accepted at the school if necessary.	

* These terms and conditions are subject to change in response to emergency situations as identified by the Director of Technology Infrastructure.
