

FREDERICK COUNTY PUBLIC SCHOOLS

Recommended FY2016 Operating Budget Highlights V 1.0

Operating Budget Highlights

The Superintendent's recommended fiscal year 2016 operating budget totals \$563,974,912. It reflects an increase of \$24,450,317 or 4.5% over the fiscal year 2015 operating budget.

The Superintendent's recommended budget includes expenditures that the Superintendent believes are needed to continue to provide quality educational services to the children of Frederick County for fiscal year 2016. It reflects the feedback obtained from engaging individuals from all sectors with a stake in public education. The recommended budget has \$23.6 million more in expenditures than revenues.

Should one-time funding be available from the County, the Superintendent hopes consideration will be given to a one-time transfer to help FCPS complete Phase 1 and move into Phases 2 and 3 of the school system's Technology Now plan. Phase 1 completion requires \$1.9 million for middle schools. Phase 2 requires \$6 million for high schools. Phase 3 requires \$4 million for elementary.

The Superintendent will continue to work with the Board of Education over the next several months to balance the budget request as revenues are more firmly established and expenditure requests are vetted.

Revenue Highlights

The county allocation of \$246.8 million represents the Maintenance of Effort level of funding required under state law (a \$1 million increase based on new students) and an increase of \$1.5 million for the teacher pension shift for a total increase of \$2.5 million or 1%.

The state revenue estimate is unchanged from fiscal year 2015 revenues due to the uncertainty of state aid funding.

Other sources of funding are estimated at \$1.7 million less due to lower use of fund balance projected for fiscal year 2016.

Expenditure Highlights

Reversals and Adjustments: There is \$0.1 million less in reversals and adjustments, mainly associated with the reversal of the funds allocated in fiscal year 2015 for the strategic plan consultant.

Continuation of Programs and Services: The \$4.6 million increase in this area includes health and dental insurance increases due to inflation; new retirees and temporary employees transitioning to permanent positions; and funding for technology and curriculum resources. The increase in continuation of programs and services is mitigated by savings due to employee turnover and utility efficiencies. The inflationary increase to insurance is an estimate and subject to negotiations.

Enrollment: Due to a small projected enrollment increase for fiscal year 2016, formula-based staffing will increase. This recommended budget includes a net increase of \$1.9 million as a result of enrollment.

Mandated: A \$3.1 million increase is mainly due to a net increase in pension expenses, increase in bus replacements, and the net growth in allocation to charter schools. The legislated local cost of state pension sharing is offset partially by an increase in the transfer from the local government associated with this pension cost sharing.

Salary and Staffing Resource Pool: This increase includes a resource pool that is subject to negotiations. This funding could be used for salary increases and/or staffing to meet systemic needs.

New Requests: The \$0.8 million increase for new requests is mainly for software and to account for the ability to use prior year fund balance.
