White	Nature and the outdoors	Teacher	X		<p>I think this process has been biased toward a build your own strategy plan from the get go. After going through this community process, it's made me realize even more so how short changed the consolidation process was. So sad for students and everyone wasting time and resources on the facade. It is an option that addresses all issues facing the district.</p> <ol style="list-style-type: none"> 1. Enrollment stability 2. Including more & consistent programming 3. Teacher retention & increased resources for our kids
White	Outdoors, Carlton Community	Public Works	Born in 1986	committee meeting	Still lot of negative out there. Need to keep informing. Once people look at option they turn around on opinions.
White		Mental Health Therapist	Millennial/GenX -it depends which website you look at :)	Flyer, friends	<p>It was inviting!</p> <p>I really like options but do not want to eliminate or decrease renovations to South Terrace. I hope you ask for enough that you don't come back to the community in a few years for additions.</p>
White	football, lifting, baseball	sports and	millennial	Mr. Schmit	I thought it was very educational for our options
		Engineer			I would like to build a new school at South Terrace ASAP.
