

## AP Biology 2018 Summer Assignment – Mrs. Cortina – West High School

1. Send me an email ([cortina.ann@tusd.org](mailto:cortina.ann@tusd.org)). Include your name (the name by which you would like to be called in class). Check this email during the summer for updates on the summer assignment.
2. Enroll in the AP Biology course page on eTUSD. The enrollment code is ATP.
3. Read and learn the information and answer the study question for Chapters 1-4. The study questions will NOT be collected but will help you prepare for the first exam, which will be given sometime during the month of September. Study questions will be posted on the AP Biology course page.
4. Access the on-line textbook by linking to the website: <http://www.highschool.bfwpub.com/launchpad/pol1e/5790925> and following the directions. Before doing this, you will need to email me (see item 1.) to request an access code.
5. Purchase a carbonless lab notebook (you can Google this and compare prices) - required for all lab assignments. **You must have this notebook on the first day of school so that you can use it for our first lab.**
6. Print out and read the AP Biology Course Contract (on eTUSD), Safety Guidelines, and Donation Request.
7. Sign (and have your parents/guardians do the same) the Student/Parent Acknowledgement form and bring it to class on the first day of school.
