

IXL for Math Practice - Madrona subscribes to an online math platform called IXL. Students can logon at home and practice any skill they would like to improve. The program will show them the skills they need to work on so they can take control of their own learning. See attachments on how to use IXL at home! Contact your child's math teacher if you have any questions!

To login:

- IXL.com or download the app onto any device
- USERNAME - studentnumber@madronamiddle
- PASSWORD - The same password they use to login to a Chromebook at school

..
