

AP Biology Summer Assignment 2020

1. Read and understand the first four chapters of Principles of Life. Answer the "Do You Understand the Concept" questions, the "Working With Data" questions, and the "Apply the Concept Questions" to check your understanding. If you cannot answer the questions, return to the textbook and re-read for understanding.
2. Enroll in the AP Biology Course on eTUSD. The enrollment code is ATP. Do not enroll until June 19th.
3. Check the AP Biology Course on eTUSD on a regular basis (at least once a week) during the summer for additional information about the summer assignment and what you need to do by the first day of school.
