

## PI Year 2 Schools: Right To Tutoring:

Schools that are in year 2 of program improvement (PI) must provide Supplemental Educational Services (SES) to eligible students. Under this program, your child **may** be eligible to receive Supplemental Educational Services (SES) - extra academic assistance that we are providing to help your child improve his or her academic performance - free of charge (except for transportation costs). If your child is eligible and you choose to enroll your child, you will be able to select a program that best fits your child's needs.

Torrance has two enrollment periods for eligible schools and eligible students. The first enrollment period is each fall and the second enrollment period is each winter. Eligible students will receive a letter from their school with more specific information.
