

## iPad: Apps – Deleting Large Apps

Settings →  
General →

Usage →  
Manage Storage

The list of apps will  
show the list in  
order of largest to  
smallest in terms of  
size.

Choose the app you  
wish to know more  
about.

If you choose to  
delete the app, tap  
delete app, and then  
again to confirm the  
action.

Once you have decided whether you can delete documents from  
the app to save space, or need to delete the app itself, you can  
choose whether to tap delete app or not.
