

# iPad Basic Settings

## Settings:

There are a number of great tweaks that can be made in the settings to enhance the behavior of the iPad.

While inside the district, your iPad will automatically connect to the district Wi-Fi. When you are outside the district, you may choose the network you wish to connect to.

## General

Sounds – You can adjust tones and alerts notification sounds

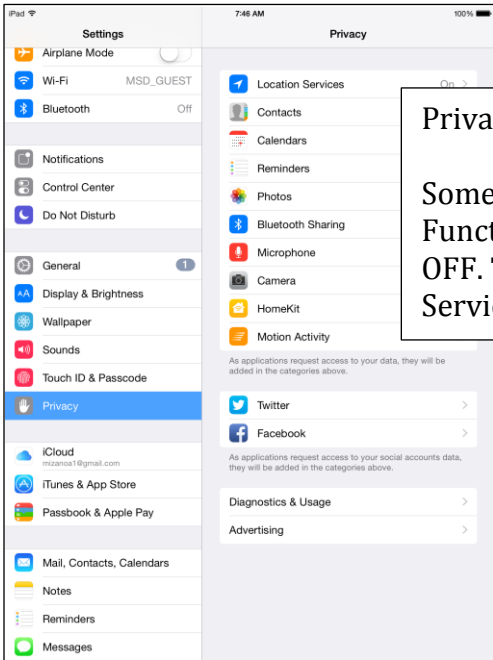

Touch ID & Passcode – Allows you to set security for your iPad.  
To Set a passcode:

1. Tap Settings → Touch ID & Passcode → Turn Passcode on
2. Enter a 4 digit code (Do not use the same number 4 times)
3. Re-enter 4 digit code
4. Tap require Passcode → Immediately

About – gives general information about the iPad (capacity, current iOS version, serial number, etc.)

Software Update – Lets you know if there is an update for your iPad

Autolock – Will let you change the time before your iPad will go to sleep without a passcode

Privacy → Location Services

Some apps require that Location Services be enabled. Functionality for individual apps can be toggled ON and OFF. Tap each option to see which apps are using Location Services.
