2019-nCov (Coronavirus) Information:

Decatur Township families and staff,

The Center for Disease Control and Prevention (CDC) considers this to be a serious public health threat, based on current information. However, the immediate health risk from 2019-nCoV to the general American public is considered low at this point in time, by the CDC.

MSD of Decatur Township will work closely with state and local health departments regarding any emergency preparation plans in the event of a pandemic. Our District will continue to work diligently to ensure a clean environment for both students and staff. If there is a confirmed case of 2019-nCoV in the MSD of Decatur Township, appropriate measures would be taken with the guidance of the state and local health departments.

If you would like additional information about the Coronavirus click here to access the CDC information.

The MSD of Decatur Township will continue to monitor students using normal school procedures to assess symptoms. We continue to encourage all student and staff to practice good health hygiene to prevent the spread of any illness, including viruses.

These steps include:

- Wash your hands often with soap and water for at least 20 seconds
- If soap and water are not available, use an alcohol-based hand sanitizer
- Avoid touching your eyes, nose, and mouth with unwashed hands
- Avoid close contact with people who are sick
- Stay home when you are sick – fever free for 24 hours without use of medication
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash
- Clean and disinfect frequently touched objects and surfaces
