

E-Learning in District 126

E-Learning is approved by the state of Illinois as a way for students to have educational experiences and instruction on days when the school has an emergency closure, such as a snow day. With the use of E-Learning, schools can still have an instructional day. The day will not be required to be made up at a later date nor at the end of the school year.

E-Learning Expectations

- Students in **grades K-2** will be provided with an electronic matrix of assignments to complete. The activities will have a QR Code at the top of the page that is unique to each school. Students will be expected to scan the QR Code using a smartphone or other device. This will be used to take attendance for students on the day that school is closed. If you do not have access to a smartphone, the web address will be listed on the activity page as well in order to sign in for attendance via the web.
 - The K-2 electronic matrix will be posted on each elementary school's website for families to access as well as through SeeSaw.
- Students in **grades 3-8** will be expected to sign into their Google Classroom accounts to obtain the assignments from their teachers. Student attendance will be taken through Google Classroom.
- Assignments will be posted for all students, K-8, by **9:00 am** on a day of E-Learning.
- Attendance **must** be submitted by **2:45 pm** on a day of E-Learning.
- Teachers will be available during normal school hours (until 2:45 pm) to support students. Teachers will review assignments, provide student feedback, and will respond to emails in a timely manner during the normal school hours on an E-Learning day.
- If for some reason students are not able to complete the work, students/parents should contact the teacher as soon as possible.
- Student Assignment Guidelines
 - Students are not required to online during a specific time on an eLearning day.
 - Assignments will follow class time work dedicated for students to complete independently to ensure the required clock hours of instruction or school work for all students.
 - K-2 will post the elementary matrix via SeeSaw
 - 3 - 8 will post assignments via Google Classroom

Please call or email your school administrator if you have any questions about the eLearning Day Program in District 126.
