**SAT**

We recommend these test dates so that students can meet specific college deadlines. Because most colleges will accept either test result, you do not have to retake (or take) both tests. Discuss with your college counselor the best option for you.

## SAT Subject Tests

SAT Subject Tests measure how well you know a particular subject area and your ability to apply that knowledge. Competitive colleges use this information, in combination with other factors, to make admission or placement decisions. You’ll want to take the SAT Subject Tests right after you’ve completed classes because the material will still be fresh in your mind. In some cases, this may mean spring of your freshman or sophomore year. Because not all Subject Tests are offered on every test date, check [www.collegeboard.com](http://www.collegeboard.com).
