

KIPP SoCal

AFTER-SCHOOL PROGRAM

We want to make sure our KIPPsters continue to have access to extended learning opportunities by doing the following:

- We will be extending the virtual After School Program (ASP) to all KIPP SoCal students during this time.
- Our ASP team will create enrichment tutorial opportunities on google classrooms
- Our After School Coordinators are available to answer enrichment-related questions
- Google Classrooms are organized by grade level and not by school

We encourage all families to participate and learn with the ASP Team!

Enrichment Tutorials will be available starting Monday, March 30th, 2020.
