He reported that the link for the survey will be disseminated through several village entities, and will remain available for one month. Final results of the survey will be shared with the Board on November 13.

Dr. Roberts met with several community members who were pleased that the survey comments are available for community review. Dr. Roberts noted that this is a testament to the communications director and the Board. Jasculca reported that many of the people who are currently not in support of a referendum were voicing a negative opinion because they felt they needed additional information. He also shared that staff feedback has been received and will be reviewed by Dr. Roberts.

President Traczyk, Member Spatz and Therese O’Neill will try to determine the dollar amount the district should request in a referendum and share their recommendation during the November 2 work session.

Dr. Roberts shared that the salary structure concerns him, noting that the district needs to be in the market value. He reported that the district will continue to look for efficiencies and make sure they spend each dollar in a way that is good for the district. It was also reported that many school districts consider going for a referendum every three or four years.

A poll of the Board showed interest in a working cash and/or sustainable referendum. It was agreed that the November 2 workshop should focus on reviewing the projections going out to 2019 and how the tax payers will be affected. The November 13 meeting will feature a review of the survey results and discussion of the enhanced vision. Jasculca reported that the November 18 forum will be taped and posted on the Web.

O’Neill reported that, in accordance with the district’s legal counsel, the presentation of the levy will take place on November 30.
