

5th Grade Math – Mar. 11

- **Good morning, and welcome to the group, Yuriij!**
- **Assessment: Complete the Chapter 9 Pre-test to the best of your ability. If you are unsure of an answer, feel free to place a “?” on the line – but don’t be lazy; try it if you have an idea.**
- **When Done: Check it over and turn it in. Then work on fixing your post-test from last week (that should be in your folder). Check all corrections with me or see me for a reteach. Prodigy when done.**
- **Homework: None**
