Continuum of Services for Students with Special Educational Needs (K-5)

General Education Classroom with Special Education Support
(average size 20 students)
Available at all elementary buildings
Follows general education curriculum.

Students attend a general education classroom and receive special education services in separate setting.

And/Or

Students attend a general education classroom with special education services provided in the general education classroom.

*Services are based on students' individual needs as indicated on their IEP (Individual Education Plan)

Instructional Classroom
(average size 10 students)
Available only at certain elementary schools.
Curriculum is driven by the students IEP goals

Uses mostly general education curriculum with evidence based interventions (for skill development)

Instruction occurs primarily within the special education classroom.

There is one teacher and teaching assistants are determined by class size and individual IEPs.

Uses significantly modified curriculum rooted in general education curriculum.

There are opportunities for inclusion in general education classes with support from special education staff as needed. These decisions are made by the IEP team. Common opportunities include Specials (Art, Music, PE, Library, Spanish), Social Studies and Science.
