

# Math Club

Calling all 1st-5th Graders! Come discover all of the areas of math that you have never thought about before. Open your mind to new possibilities that could even result in your future career someday. This will be a time to be with your friends and explore your thinking through puzzles and other challenges. This class will be every Monday beginning on January 14th - May 6th, 3:00-4:00 p.m. Depending on the amount of signups, we will break into different sessions throughout the second portion of the year. I will communicate this once permission slips have been returned. Pick up for this class will be outside between the main office and P.E. Gym doors. Permission Slip Due **December 21st!**
