

History of Thanksgiving

By: Alex, 4th grade

As Thanksgiving comes up in November, it is a good time to think of all the things we are thankful for. What we do on Thanksgiving is all different. Some people might have parties. Others might have a big dinner. But why is Thanksgiving celebrated.

Thanksgiving is celebrated on Thursday, November 28. It is celebrated because it was their first harvest in the new world. The feast lasted 3 days. Edward Winslow also participated in the big feast. It was attended by 90 Native Americans and 53 Pilgrims. 1789 was the first year we celebrated this holiday. Later Thomas Jefferson did not observe this holiday. Abraham Lincoln later changed this to a holiday. This is why you should be thankful.

Fact #2: Thanksgiving is a national holiday celebrated on various dates.

Veterans Day

By: Madden, 5th Grade

Veterans Day. A holiday that we all know and love. A day that we usually get to skip school. But not this year, no, no. Instead, we are very much at school, and not at home or at a Veterans Day parade. Not enjoying the TV broadcasts of the massive parades and parties in the big cities like New York City and Chicago and honoring our veterans service. Instead we are at school, doing work on a national holiday. What's next! No holidays at all? I'm straying off topic. While Veterans Day is a big holiday, the history of it remains unknown to most.

Veterans Day started as being called Armistice Day and it commemorated the end of one of the bloodiest wars in history, World War One. Congress passed a bill in 1926 for an annual holiday to be celebrated to honor the men and women who have served in combat. A fun fact about World War One was that the peace treaty was signed on the eleventh hour of the eleventh day of the eleventh month. That is why Veterans Day is celebrated on November 11. The armistice treaty was signed in the palace of Versailles, located in France. But, 1954, after having been through both World War II and the Korean War, Congress amended the Act of 1938 by striking out the word "Armistice" and inserting the word "Veterans." With the approval of this bill on June 1, 1954, November 11 became a day to honor American veterans of all wars that we have fought in.

Our Armed Forces

By: Caelan (3rd Grade)

Dedicated to Grandpa Mark

Our country is great in many ways. One of those ways is our armed forces. Comprised of the Army, Air Force, Navy, Marine Corps, Coast Guard, And others, these six branches make up our military. And sense Veterans Day has happened, we should all take a moment to remember our armed forces.

A lot of people usually forget that everyday over 1.3 million people risk their lives while defending the United States of America. There are millions of families that have/had at least one person in their family that was part of the military. I happen to be one of those families, as my grandpa was in The Vietnam War. This was a form of inspiration for this writing.

When most people think about the U.S. military, they often think about the Army. This is probably because their the most well known. They also have one of the most dangerous positions in the entire military, mainly because their always on the battlefield, which is very dangerous.

The Air Force have a really hard job, which can be described in many different ways. One of those ways are dropping from airplanes into battle. Training for this is a very time consuming process. It's also really dangerous. They also need to be trained in three very different locations: the air, space, and cyberspace.

The Navy does battle on water, which is very tricky. One of those many ways is that they have to move quickly to not only avoid enemy ships attacks, but also to fire projectiles at moving ships. With over 285 ships (which includes 11 super aircraft carriers), it's probably not a surprise that the U.S. Navy might possibly have the largest selection of vehicles in a branch for the military.

The Marine Corps have a very special job: they travel all over the attack areas where help is needed. They work all around the world, including Naval bases, the battlefield, etc. they truly have a unique position, but at a cost. It can take a lot of time, since they have to learn how to fight in all these different places.

The Coast Guard is the oldest sea service for the United States. They do almost all their attacks on water. Their job is to protect the coasts of the U.S. At this very moment, over 42,000 men and women are protecting the water borders of the U.S

You don't have to defend U.S. land to be in the military. My grandpa helped injured military members. Every day, thousands of nurses and doctors are helping the military. You don't even have to be in the military to help. Yes, even everyday people like you can help. You can just send out money to help the military. This money will go a long way.

The U.S. Army, Air Force, Navy, Marine Corps, Coast Guard, and others make up our amazing military. You are part of it to. In fact, every person in the United States of America is part of are military, because we help them every day. One of those ways is by celebrating Vetran's Day, a day to remember all members that have/in the military. So take a moment of silence today to remember our country's armed forces

The Dog Story **By: Rachel (5th Grade)**

I opened my eyes to see myself in a litter full of little puppies. I was curled up next to my mother. But hands plunged in and took all of us out. I hadn't realized how many siblings I had! The hands scooped me up and carried me to a cage far away from the pen where my sisters and brothers were playing.

"What should we with this guy?" A woman with curly blonde hair asked. "Well, he looks like a tough one, so maybe we could give him to the military." Said another woman with straight brown hair. "No, he isn't actually tough, but he could be a therapy dog." Blonde-woman said.

Both women argued back and forth until brown haired woman said, "Fine, we can give Baxter as a therapy dog." I had no idea what a "therapy dog" was. And who was Baxter? Blonde-woman picked me up and whispered, "Baxter, your going to help so many lives." Now I understood who was "Baxter." It was me! I was Baxter! I would be the one that would help so many lives!

I wagged my tail happily and gave her a huge lick in the cheek to let her know I was happy. She laughed in response and stroked my head and ears. I was feeling quite sleepy so I rested my head in her arms and slowly fell asleep. As I woke up, I found myself in a pen. It was plastic, with a mesh wire.

I growled at it to let it know that I was not going to let it get in my way. But it just stayed still. I showed all my teeth at it and it still did not move. Humph! It was supposed to get out of my way! Not keep getting in my way!

After clawing at the mesh wire for a while I got tired and then before I knew it, I fell asleep. Again.

Smile Book Review

By: Aaron (4th Grade)

Smile by Raina Telgemeier is a book about a girl named Raina who fell and knocked out her two front teeth but they only found one the doctors try to fix her teeth but it turns out one of the teeth was shoved up in her gum can the doctors make her teeth perfect again? My opinion about this book is that it is a really good book to read. The author adds pictures and words to hook a reader to read it many times. Raina is a cool character to be the main character in the book smile. I would recommend this book to a parent to read it because I think they would like the book smile.
