Administrative Reports
Re-Opening Plan Status and Check In
Mrs. Schmidt reviewed the times lines for the hybrid phase-in to in-person learning.
October 15, 2020 Willow Grove kindergarten students returned to in-person learning
October 19, 2020 Elementary grades 1 and 2 students returned to in-person learning
October 29, 2020 Students in grades 3 – 8 were scheduled to return to in-person learning

She noted that it was a joy to bring students back into the school buildings, learning alongside their remote learning peers. The model was successful in minimizing the chance of close contact identification, opening with smaller class sizes, giving fully remote students an opportunity to return to school in January 2021 without a required schedule change, creating opportunities for lunch and breaks to occur safely, limiting the
number of students on busses, and not diminishing the amount of instructional time for either group. The model was deemed ideal by health experts.

Mrs. Schmidt reviewed previously identified circumstances that would pause the return of students to in-person learning, which include a surge in metrics, a cluster of positive cases, or a positive case in a classroom. Families choosing to return to in-person learning were asked to acknowledge these possible scenarios.

When the plan was created to return to in-person learning in September, Lake County was in a Moderate Community Spread phase, allowing students to return to school. Since that time, Lake County metrics have moved in the wrong direction and on October 16, 2020, school districts were informed that if the 7-day rolling average for incidence rates was above 14/100,000, the LCHD would be recommending a return to remote learning. On October 20, 2020, the LCHD stated that has happened, and Lake County is in a Substantial Community Spread phase with incidence rates almost as high as Spring 2020. The trajectory of the trend line is extremely steep and the recommendation is that all schools should revert to full remote learning within 7 – 10 days for a period of time until community spread rates decline.

D96 also has to look at the zip codes of faculty and staff members who are coming into our school buildings. There are approximately 528 adults from 65 zip codes coming into the buildings. The average Incidence Rate of those areas is of 20.5/100000. Therefore:

- All students at all grade levels will take an “adaptive pause” and revert to full remote learning for 10 days beginning Mon., Oct. 26, which is within the 7–10 day window to make the transition and gives families notice.
- This pause will remain in effect for at least 10 calendar days and until 7 consecutive days with a 7-day rolling average of 14 or fewer cases per 100,000 are indicated.
- On or before Wed., Nov. 4, a metrics update will be provided.
  - If the metrics support a return, Willow Grove and 1st and 2nd grade students will return the week of Nov. 9.
  - If the metrics support a return, Grades 3–8 will begin in-person hybrid learning the week of Nov. 16.
  - If the metrics do not yet support an in-person return, new timelines will be established.

Mrs. Schmidt will share tonight’s presentation with the full community on Wednesday morning. She asked that families continue their diligence of wearing masks, social distancing, maintaining hygiene, and cooperating with the Health Department.

Country Meadows/Woodlawn Campus Solar Project
Mr. Hitcho reviewed the timeline for the Solar Project at the Country Meadows/Woodlawn campus, which began in 2016 with a meeting at the Village of Long Grove. Construction began in March 2020 and the solar field was connected to ComEd on October 12, 2020. The total cost was $3,700,000, which will be completely recouped with a return on investment in 16 years. The solar panels will offset 92% of the campus electricity demand and those funds will be reinvested into education. The panels will provide an educational benefit to the STEM curriculum, an environmental benefit by reducing CO2, and a financial benefit by locking in energy rates.
The project included student artwork, which was turned into “panel skins” to adorn 100 panels. The art project was under the guidance of Liv Grossman and Jeremy Martin.
