Unvaccinated Students and International Travel

What is the protocol for returning to school for unvaccinated students who have traveled internationally?

Per the IDPH/ISBE school FAQ on Sept. 21, 2021, a student who travels internationally and is unvaccinated needs to:

- test between days 3-5 after travel
- self-quarantine for 7 days (10 days without a negative test)

The student will be eligible for remote learning on day 2.
