

Complete Your Annual Physical and Recommended Men's Health Screenings Today.

1. Choose a primary care provider. *To locate a provider please visit bellinsearch.org.*
2. Stay up-to-date on physicals and screenings. (See chart below.)
3. Don't put yourself last. Talk to your provider about specific concerns right away.

Recommended Men's Health Maintenance

Note: Each age includes all prior recommendations.¹

Any Age

- Flu shot annually
- Tetanus shot every 10 years
- Skin cancer self-exam regularly
- Diabetes screening if you have high blood pressure or high cholesterol
- STD test regularly if you are at increased risk for Chlamydia, Gonorrhea, HIV, or Syphilis
- Mental health screening if you've felt "down", hopeless, or have lack of interest in normal activities for 2 weeks in a row. (Get immediate help if you have thoughts of suicide.)

Under 30

- Physical every 1-3 years (blood pressure, BMI, testicular exam)
- Testicular self-exam every month

Age 30+

- Physical every 1-2 years
- Cholesterol test every 5 years starting at age 35

Age 40+

- Annual physical

¹*These guidelines are for healthy men. Follow the advice of your primary care provider based on your individual health status.*

Age 50+

- Comprehensive annual physical
- Colonoscopy every 10 years
- Pneumonia vaccine at age 65+
