ADMINISTRATIVE CODE OF ETHICS

As representatives of the district, all administrative staff is responsible for serving the best interests of the community and its students, utilizing all available resources toward that end.

Administrative staff should attend all meetings as required and be prepared at those meetings to advise on issues before the Board. Staff should be prepared to contribute to the discussion, while keeping an open mind during the deliberations. Once the decision is made, staff should be willing to support and promote its implementation.

Staff must remember that responsibilities for overall management and control of the property and affairs, including the development of policies, belong to the Board while the responsibilities for the day-to-day operation of the schools belong to the administration. Together, the Board and administrative staff must work to continually identify the needs, goals and priorities of the district.

Administrative staff must be responsive to the public, maintaining open communication lines with all citizens in the community, informing them on the educational needs of the district, as well as on actions of the Board and accomplishments of the district's educational program.

Administrative staff must insure that the district has able and well-qualified employees who will serve in the best interest of the students. Administrative staff should also communicate with the Superintendent, Board, local, state, and federal legislators.

Administrative staff must avoid all conflicts of interest, both financial and non-financial; Specifically, administrative staff will not:

- a. use their position for financial gain or to obtain anything of substantial value for themselves, their immediate family or for any business or organization with which they are associated;
- b. solicit or receive anything of value if it could reasonably be expected to influence their action or judgment, or if it could be considered a reward for any action or inaction;
- c. use or disclose confidential information gained in their position that could result in financial gain for themselves or for any other person;
- d. take any action that substantially affects a matter in which they, a member of their immediate family or an organization with which they are associated have a substantial financial interest;
- e. use their position in a way that produces a substantial benefit -- direct or indirect -- for themselves, a member of their immediate family or an organization with which they are associated.

For the purpose of this policy, "anything of value" means any money or property, favor, service, payment advance, forbearance, loan or promise of future employment. It does not include compensation and expenses authorized by state law, political contributions which are reported in accordance with state law or hospitality extended for a purpose unrelated to school district business by a person other than an organization.

All Administrative staff will abide by all applicable provisions of the Wisconsin Code of Ethics Law. Failure to abide by all applicable provisions may subject the violator to penalties outlined in state law and/or disciplinary action which may include immediate dismissal.

Questions regarding ethical conflicts should be first directed to the Superintendent who will seek resolution with advice from legal counsel and/or the State Ethics Board.
