SCHOOL DISTRICT LEGAL STATUS

The United States Constitution leaves the responsibility for public education to the individual states. In its capacity as agent of the state the school board is required to implement and enforce the statutes affecting public education.

The constitution of the State of Wisconsin provides for the establishment of free district schools "--which shall be as nearly uniform as practicable" and sets up the mechanics for school district organization and reorganization. The state legislature is given the power to create, dissolve, alter, and consolidate school districts.

The state constitution further provides for a department of public instruction, under the supervision of a state superintendent of public instruction, to provide leadership and services to local school districts.

The School District of West De Pere is classified as a common school district. It includes the city of De Pere, west of the Fox River, parts of the townships of Hobart and Lawrence, and part of the village of Ashwaubenon, Brown County, and part of the township of Oneida, Outagamie County. The district is under the management and control of a locally elected school board which acts as an agent of the state and governs the public schools in accordance with state law.

BOARD OF EDUCATION MEETINGS

The Board, as a representative body of the district, wishes to provide an avenue for any citizen to express interest in and concerns for the school. Accordingly, the public is cordially invited to attend any and all open sessions of the Board and the first fifteen minutes of each regular meeting will be opened to the floor to enable district residents to bring items of general concern to the attention of the Board. As per state statute, no action can be taken on issues raised unless such have been previously posted on the agenda.

Meetings of the Board are conducted for the purpose of carrying on the business of the schools, and therefore are not public meetings, but the meetings are held in public.

It is the desire of the Board that meetings shall be formal enough for orderly business but informal enough to be natural and to encourage free discussion and to promote group thinking and action.

The Board desires to be aware of the problems, requests, complaints, and suggestions of members of the district, but it is necessary that the Board not allow prolonged discussion of such material to interfere with diligent attention to the affairs of the district.

In order that the Board may fairly and adequately discharge its overall responsibility, citizens who wish to make requests, representation, or proposals to the Board are requested to direct these to the superintendent of schools, who may place them on the agenda of the next regular meeting for Board consideration. The intent of the rules is:

1. To allow everyone who wishes it, a fair and adequate hearing.
2. To allow the superintendent of schools to take direct action, or to recommend actions to the Board, when policies have already been established by the Board.
3. To minimize the possibility of the Board's making ill-advised, illegal, or improper rulings due to hasty action in the absence of adequate information and study, especially when policy does not exist, a change in policy is proposed, or an exception to policy is specifically requested.
4. To see that the time so devoted does not interfere with the scheduled business of the Board.

SERVICE ANIMALS

The Board of Education recognizes the important role that service animals perform for individuals with disabilities. Therefore, service animals shall be permitted on district property as an accommodation for individuals with disabilities. The only exceptions are when the accommodations of the service animal would result in a fundamental alteration in the nature of the school district's operation or would result in an unreasonable threat to health and safety, as described below. In making such accommodations, the district will comply with the Individuals with Disabilities Education Act of 2004, Section 504 of the Vocational Rehabilitation Act, the American with Disabilities Act (Amendment Acts), and any other applicable laws.

The ADA Amendments Act defines a service animal as a dog that is individually trained to do work or perform tasks for people with disabilities. Other animals, whether wild or domestic, do not qualify as service animals. Service animals are not considered pets, classroom animals or curriculum aids. Dogs that are not trained to perform tasks that mitigate the effects of a disability, including animals that are used purely for emotional support, comfort, companionship, therapeutic benefits or promote emotional well-being are not service animals.

(See Miniature Horses.)

Inquiries: The District shall not ask about the nature or extent of a person's disability, but may make two inquiries to determine whether an animal qualifies as a service animal;

1. Is that animal a service animal?
2. What task is the service animal trained to do?

The District shall not require documentation of the individual's disability or documentation that the service animal has been certified, trained, or licensed as a service animal. The District will not make these inquiries when it is readily apparent that the animal is trained to do work or perform tasks for an individual with a disability (e.g., the service animal is observed guiding an individual who is blind or who has low vision, pulling a person's wheelchair, or providing assistance with stability or balance to an individual with an observable mobility disability.)

Service Animals for Students and Staff

The District shall permit students or staff to use service animals in District facilities and at school events. The District may impose legitimate safety requirements necessary for the safe operation of its services, programs or activities; however, the District will ensure that its safety requirements are based on actual risks, not on mere speculation, stereotypes or generalizations about individuals with disabilities.

Vaccinations, Licensing, and/or Veterinary Requirements: All animals, including service animals, housed on District property or brought on District property on a regular basis must meet every veterinary requirement set forth in State law and County regulation/ordinance, including, but not limited to, rabies vaccination or other inoculations required for the animal to be properly licensed.

Care and Control of Service Animal: The District is not responsible for the care or supervision of the service animal. The District shall modify its policy, practices, or procedures to permit the use of a service animal by an individual with a disability.

The service animal is to be under control of its handler at all times. The service animal shall have a harness, leash or other tether, unless either the handler is unable because of a disability to use a harness, leash or other tether, or the use of a harness, leash or other tether would interfere with the service animal's safe, effective performance of work or tasks, in which case the service animal must be otherwise under the handler's control (e.g. voice control, signals, or other effective means).

The service animal's trainer can help to develop a plan to assist the student with the dog (e.g., the student's aide might transfer the service dog's leash from a student's wheelchair to a tree during recess). Additionally, a younger student might need reminders from school staff about controlling the dog until s/he is comfortable handling the service animal at school.

While the student is responsible for the service animal's care, including feeding and supervision, the District should develop a plan to provide the student with the necessary time to care for the animal and designate a location for the animal's toileting needs.

SERVICE ANIMALS

The Board is not responsible for the care or supervision of a service animal.

The District may ask an individual with a disability to remove a service animal from the premise if;

1. The animal is out of control and the animal's handler does not take effective action to control the animal;
2. The animal is not housebroken;
3. The animal poses a threat in that it is a significant risk to the health and safety of others that cannot be eliminated by a modification of policies, practices or procedures;
4. The presence of the animal fundamentally alters the learning or work environment. Examples may include, but are not limited to, science labs, areas requiring protective clothing or food preparation areas.

If an animal is removed, the District shall give the individual with a disability the opportunity to participate in the service, program, or activity without having the service animal on premise.

Procedure: A student or staff member who wants to bring his/her service animal to school must notify the Building Principal in writing, at least ten (10) school days prior to the date the animal will be coming to school so that the school staff can meet with the student and his/her parents, or staff member, to discuss any concerns and develop a plan. The plan, at a minimum, should address how school staff and other students will be educated about and introduced to the service animal, how the student will be accommodated to care for the dog, and how any issues will be resolved. The Principal should provide the student and staff with specific instructions concerning emergency evacuation plans, entry and exit points, areas where the animal may urinate/defecate, waste removal procedures, and building restrictions, if any.

The Principal will provide written notification to all parents of students in the affected class(es) and staff in the affected class(es) that a service animal will be coming into the school setting. The notification will request that the parents and/or staff notify the Principal if their child or they have any known allergies, asthma, or other health condition that might be aggravated by the service animal's presence. The Principal will take appropriate action to protect any such students or staff members from exposure to the service animal.

When an individual whose health may be aggravated by the service animal's presence and an individual who uses a service animal must spend time in the same room or facility – e.g., in a school classroom or cafeteria – both individuals should be accommodated by assigning them, if possible, to different locations within the room or different rooms in the facility.

Access to Areas of the District: Individuals with disabilities shall be permitted to be accompanied by their service animals in all areas of District facilities where members of the public, participants in services, programs or activities, or invitees, as relevant, are allowed to go.

Service Animals for Visitors

The District shall permit visitors to use service animals in District facilities and at school events and make reasonable accommodations for the individual's use of a service animal on District property. The District shall not ask about the nature or extent of the visitor's disability, but may make the following inquiries on whether an animal qualifies as a service animal;

1. Is that animal a service animal?
2. What task is the service animal trained to do?

Staff may not ask the visitor to produce documentation of his/her disability or documentation that the animal is certified, licensed, trained or is being trained to be a service animal.

SERVICE ANIMALS

Miniature Horses

The District shall make reasonable modifications in its policies, practices or procedures to permit the use of a miniature horse by an individual with a disability, so long as the miniature horse has been individually trained to do work or perform tasks for the benefit of the individual with a disability. (Miniature horses generally range in height from 24 inches to 34 inches measured to the shoulders and generally weigh between 70 and 100 pounds.) In making such a determination, the District shall consider:

1. The type, size, and weight of the miniature horse and whether the facility can accommodate those features;
2. Whether the handler has sufficient control of the horse;
3. Whether the horse is housebroken; and
4. Whether the horse's presence in a specific facility compromises legitimate safety requirements that are necessary for safe operations.

STUDENT FUNDRAISING ACTIVITIES

Fundraisers and contests within the respective buildings shall have the approval of the building principal and Business Manager. Fundraisers or contests affecting more than the originating building shall not be conducted unless approved by the Superintendent.

The following guidelines are approved for fundraising activities in the West De Pere School District. Any questions regarding these guidelines, appropriateness or approval of fundraisers should be directed to the building Principals or the Superintendent/Business Manager.

- All approved district activity programs, will have an established budget, in an effort to eliminate the need for fundraising activities.
- If a budget does not exist, and money is required for a specific activity, the activity must provide a written explanation of how funding is to be derived, *without* resorting to fundraising activities. An activity is defined as a one-time event, which is not part of a recognized and established WDP activity program.
- Fundraising approval will occur at each individual building. The building Principal and Business Manager are responsible for this approval. The Principals will be required to keep each other advised of proposed fundraising activities so that there are no overlaps in types of fundraisers. (I.E. two fundraisers selling pizza)
- PreK-5 students shall not be involved in any fundraising programs off school property. Door to door or commercial vendor agreements are not allowed under any circumstance. Occasional sales such as ice cream, popcorn, or baked goods, etc., are permitted at the discretion of the building principal.
- Fundraising will not be allowed to support the acquisition of supplemental clothing for activity programs. The ordering of supplemental clothing is not being discouraged. These clothing items are generally personal in nature; t-shirts, sweatshirts, hats, etc., and do not become part of a program's uniform or required dress. Students should pay for these items individually as the items are theirs to keep after participation ends, and generally fundraising activities for items of this nature generally have a small percentage of students who do not participate (or who do substantially more than others), creating inequities and occasionally ill will within a program.

Students who cannot afford these personal items due to economic circumstances, should be referred by name to the Director of Student Activities for consideration of financial support from other sources.

- A limited number of large fundraisers at all of the WDP School District buildings will continue to occur. The exact number and types of these fundraisers cannot be quantified at this time, and will be determined by the Superintendent.
- External group fundraising activities within the West De Pere School District should be presented and approved by the West De Pere administration.
