

Continuing to Provide Personalized Education
Strategic Planning Session 1: Points of Pride
September 15, 2014

On Monday, September 15, 2014, seventy-eight (78) Woodbury community members, Board of Education members, administration, teachers and staff, and students met for the purpose of strategic planning. The purpose of this planning was to seek contributions to efforts of the Woodbury City School District to engage community members in future thinking improvement needs for the District. The September 15 meeting was the first in a series of four community engagement sessions. During this session, “What is Working Well in Woodbury City Schools?”, participants worked in small groups.

Their first task was to think individually about this topic and to record their thoughts. Following this, participants shared their individual thinking, and following discussion, they reached consensus on points of agreement on what is working well. These consensus points were then presented by the small groups to the full group of meeting participants. Members of the large group then discussed, compared and contrasted the results of thinking across the small groups.

What follows is the summary and individual work of the small groups. Listed first are the consensus points made by each small group. The thinking of each individual then follows.
