“Woodbury schools are an example of what a public district can accomplish with strong, innovative leadership.”

“Now that our two children have graduated and are off to college, we are very pleased to see that they have been well-prepared for the rigor of a college education. Both attended Woodbury Public Schools from kindergarten through senior year. While we have always been pleased with their education we were curious to see how they would measure up to their peers in college. Their Woodbury education has served them well: Their writing skills have proven to be top-notch, they have been prepared to handle college-level mathematics courses, and they have been able to successfully utilize the organizational and preparation skills learned in Woodbury. Also, their exposure to the racial, economic and cultural diversity of the Woodbury student population has given them an advantage in acclimating themselves to the diversity of college life. In short, we believe that the Woodbury public school system has provided our children with the tools needed to thrive in college.”
