

WOODBURY CITY PUBLIC SCHOOLS

A Leader in Personalizing Education

August 31, 2018

Dear Woodbury City Public Schools,

During the August 29, 2018, Board of Education meeting, the Woodbury Board of Education accepted my resignation as Superintendent of the Woodbury City Public Schools. After careful consideration, I have made a personal and professional choice to accept a different job opportunity and one that is closer to home.

Words cannot express how sincerely grateful and appreciative I am to have had the opportunity to be the Superintendent for the Woodbury City Board of Education, the Woodbury City Public Schools staff, students, and families. They had the confidence in my leadership abilities to continue moving the district forward in transforming and innovating ways over the past year. It was a privilege and honor to work with a committed, dedicated, and progressive staff who are open-minded in implementing initiatives and keeping focused on student achievement. As a result of extensive planning, a solid foundation for implementing initiatives has been developed. I have confidence these initiatives that benefit the students and staff will continue to thrive over the coming years.

Woodbury City Public Schools is a remarkable district that has grown over the past year through the commitment of all staff members and the Board of Education. I wish the district continued success in the future.

Sincerely,

Lynn DiPietropolo
