

**When you don't have a home,
how are you supposed to:**

- stay at home?
- wash your hands?
- self-isolate?
- disinfect?

Concerns surrounding COVID-19 increase by the minute. Low income families are suffering more each day.

As this situation develops, we need to ensure those in need are safe, secure, and healthy.

Sojihuggles Children's Foundation has provided over \$13,000 in aid to families in need in Sussex County in just the past week alone.

We are fortunate to have a very generous donor who will match additional contributions up to \$12,000.

With your help, we can continue to provide aid now.

Please make your donation [here](#) or go to www.sojihuggles.org

NOTE: at Sojihuggles 100% of your donation directly supports those in need.

If everyone who receives this email donates just \$1 for each household member (less than your daily dose of coffee), we will make this \$12,000 goal.

The clock is ticking. Funds must be raised by May 30th to secure the match.

Never have we needed to work together more to help those who need it most.

To make an even bigger impact please forward this to others.

With heartfelt gratitude, we thank you for your support and generosity.
