Introduction

We believe that lifelong success depends on learning to make responsible choices. We believe students have rights and responsibilities. The most important right every student has is to learn. In order for learning to be maximized, we believe that students must feel safe and secure.

Read this handbook and the District 79 handbook with your child. We ask parents to help their children understand that rules for large groups must often be stricter than rules enforced with small groups at home. Remind them that all of our rules protect their rights and safety. A copy of this document is posted on our school website.

The discipline information within this handbook, aligns to Board Policy 7:190. All rules and expectations contained in 7:190 are in effect. Refer to the Table of Contents to view specific topics.

By understanding Pennoyer's school rules, parents and students have the ability to function at a higher level intellectually, socially, and emotionally. Students must be guided in the development of a sense of responsibility for his/her behavior and growth. We are dedicated to working with parents to provide a positive, nurturing environment for every student.

We do not tolerate violence, aggression, or intimidation at Pennoyer School. We strive to be a violence-free zone. A violence free zone is a safe place for children. Bullying is an "imbalance of power" from an aggressor to individual. It is not tolerated.. Bullying behavior is defined as harassment, intimidation, or physical and/or verbal aggression which places another student or staff member in reasonable fear of harm to his/her personal property or self. Counseling intervention might be utilized for those students in need of additional positive behavior supports.

This handbook includes school rules that protect students in the cafeteria, playground, and on the bus as well as within the school building. Serious violations of school rules may result in a report to the Norridge police. Again, parents and students must adhere to the rules/policies outlined in the District 79 Handbook.

Sincerely,

Pennoyer School Staff

Chronic health conditions/ Medications at school:

When a child's health file indicates a chronic condition, allergy or that they require a daily medication (ie: asthma, diabetes, or severe allergies such as bee stings, peanuts, or gluten; Benadryl, and inhaler, or an EpiPen,) we must have the indicated medications, as well as medication administration form on file and in school. (Pennoyer Board of Education Policy 7:270 Administering Medicines to Students)

Student Medications:

- Written doctor's order must be provided for both prescription and non-prescription medication including Tylenol and cough drops. It must include the child's name, medication name, dosage, time to be given, side effects and duration.
- Medication must be in a pharmacy labeled container or in the original package container for non-prescription medication.
- Written permission must be on file in the office for any medication ordered for your child when administered at school.

For details regarding this policy please visit the following link <http://www.pennoyerschool.org/boe/board-policies/section-7-students/index> and select policy 7:270 *administering medicines to students.*

Emergency Contacts:

The school must have a list of emergency contacts, both on your blue form, and on your Skyward account. Emergency contacts are typically listed in descending order, starting with the most reachable person that is granted pick up privileges. Some common emergency contacts can be parents, guardians, grandparents, and even family friends.

When considering your emergency pick up person, choose someone that lives or works a short distance from Pennoyer, if possible. In the unlikely event that we need to call an ambulance for emergency medical care, an emergency pick up person must give permission and accompany children to the hospital if it's determined that emergency intervention is necessary.

Parent contact regarding illness or injury at school:

In the event that a student endures a **mild injury** at school, parents will receive a nurse's note, indicating the events that led to the injury, any assessment/treatment provided, as well as observation instructions. Sometimes students will sustain mild head injuries in PE or on the playground. For example a bump to the head on the monkey bars while climbing, or getting hit with a ball while walking through the gym.

In the event that the injury is deemed minor (ie: no loss of consciousness, altered mental status, dizziness, blurry vision, or nausea,) a note from the nurse will be sent home along with a concussion packet per protocol. This does not mean that your child sustained a concussion; it simply means that your child sustained a blow to the head and must be observed for signs/symptoms that are consistent with concussion or closed head injury over the next 24 hours. If your child does not display symptoms after 24hrs, there's no need for further follow up. If your child shows signs/symptoms within 24 hours, they must be evaluated and cleared by a physician to return to school. This ensures that your child gets any necessary accommodations for their symptoms (ie: limited use of the chrome books, sit out of PE, no reading, etc.)

Serious injury during school hours will require immediate medical assessment and or intervention. We require a qualified emergency pick up person to report to the school in the event that we need to transport your child by ambulance. Hospitals will typically refuse to administer medical treatment without parental consent.

Injuries/illnesses which require observation at home (child will be sent home if at school):

There are situations in which your child has symptoms that are consistent with an illness, and require further observation and isolation from the school environment. The following bullet points can be used as basic guidelines for determining whether your student might be contagious, or unfit for the school environment. Observation to determine worsening of symptoms at home is sometimes indicated. For example, as student that faints for the first time at school, or has as seizure, with no previous seizure disorder diagnosed.

Injuries/illness *including but not limited to* the following:

Head Lice:

What is the school doing to help control infection?

Although schools no longer have 'nit nurses' or do termly checks we do still have an important role in supporting parents in managing the problem. By working closely with parents and our students and promoting the head lice policy we can hopefully make a difference. We will provide advice and support to parents by promoting our new campaign 'Once a week, take a peek', and additional support from the school nurse if requested by a parent. If your child is suspected of having head lice we will inform you and request that you check your child and treat if necessary.

Why do you not exclude children from school who have head lice?

In short, the American Academy of Pediatrics, Department of Public Health and the Centers for Disease Control all agree that students should not be excluded for head lice infestation. The reason for this is that, although head lice are unpleasant it is not classified as an infectious disease. Furthermore, extensive research

shows that head lice is relatively difficult to pass from one person to another; requiring prolonged head to head contact for transmission, therefore making it difficult to transmit in a school setting.

Why do we no longer receive letters when there is an outbreak of head lice?

We have replaced our previous case by case alert system with our new 'once a week take a peek' initiative. 'Alert' letters frequently lead parents to attempt to treat their children preventatively, which is neither effective nor advised. Head lice infection cannot be prevented, and over-use of insecticide treatments may lead to resistance, or "super lice."

7 Key Head Lice Facts:

- o Head lice are common among young children and their families
- o Head lice don't spread disease
- o Head lice can be spread from adults to children and back again
- o There's nothing to be embarrassed or ashamed about having head lice
- o Having head lice has nothing to do with good or bad personal hygiene
- o Lice eggs hatch after around 7 days so two applications are always needed to make sure all lice have been killed
- o There are pesticide, non-pesticide, combing and alternative treatments on the market. Your pharmacist will be able to help you work out which is best for you and your family

Who is responsible for the prevention of head lice?

It remains parental responsibility to detect and administer treatment for head lice to their own children. From time to time you will receive 'Once a week, take a peek' messages from our health office to remind you of our campaign to 'take a peek!' in your child's hair.

- Do weekly head checks and look for lice and nits. (Try checking on Friday evening so you have the weekend to treat if necessary.) Lice and nits are very small; use a bright light and/or magnifying glass.
- Don't share personal items that have been close to the head or neck.
- Keep long hair in a braid or ponytail

Note: Its important to check your child's hair, as head *lice don't always cause an itchy scalp (head,)* so many people will be unaware that they are infected.

For further details, instructions, including images of head lice and treatment procedures, see our "once a week, take a peek," handout on the Pennoyer Website!

Absenteeism

Attendance Expectations

We expect all students to arrive on time to school at 8:10 am. Students who arrive to school after 8:15 am will be tardy. We expect parents to ensure that students arrive on time and are ready to learn. If children are sick and will be absent from school, we expect parents to call the school office at (708) 456-9094 before 8:10 am on each day of an absence. Parents should expect us to contact the home when children are not in school. If a child is absent for five (5) consecutive days, a doctor's note is required to return to school.

Truancy

Definition:

1. **The School Code of Illinois (105ILCS5, Illinois Revised Statute), Section 26-1** provides that any child between the ages of seven (7) years and sixteen (16) years shall attend school in the district where the child resides, with the exception of those attending a private or parochial school.
2. A “truant” is defined in Section 26-2a as a child subject to compulsory school attendance, who is absent without a valid cause from attendance for a school day or portion thereof.
3. **A “chronic truant” is defined in Section 26-2a as a child subject to compulsory school attendance who is absent without a valid cause from attendance for 5% (9 days) or more of the previous 180 regular attendance days.**
4. Note: The determination of excused vs. unexcused absences is the responsibility of the school. The school may decide, based upon a Parent/Guardian’s calls to school, whether the absence is excused or unexcused. After numerous call-ins from specific Parents/Guardian, the school may decide to require a doctor’s note to excuse future absences.

A child absent from compulsory school attendance without valid cause will be considered truant. Habitual truants are subject to legal action consistent with state law.

In the event that your child will have an unexpected, prolonged absence, please notify the building administrator.

6:235-AP1

Administrative Procedure - Acceptable Use of Electronic Networks

All use of electronic networks shall be consistent with the District’s goal of promoting educational excellence by facilitating resource sharing, innovation, and communication. These procedures do not attempt to state all required or prohibited behavior by users. However, some specific examples are provided. Privileges - Use of the District’s electronic network is a privilege, not a right, and inappropriate use will result in a cancellation of those privileges. The system administrator or Building Principal will make all decisions regarding whether or not a user has violated these procedures and may deny, revoke, or suspend access at any time. His or her decision is final.

Unacceptable Use - The user is responsible for his or her actions and activities involving the network. Some examples of unacceptable uses are:

- a. Using the network for any illegal activity, including violation of copyright or other contracts, or transmitting any material in violation of any State or federal law;
- b. Unauthorized downloading of software, regardless of whether it is copyrighted or de-virused;
- c. Downloading of copyrighted material for other than personal use;

- a. Be polite. Do not become abusive in messages to others.
- b. Use appropriate language. Do not swear, or use vulgarities or any other inappropriate language.

- f. Consider all communications and information accessible via the network to be private property.

No Warranties - The District makes no warranties of any kind, whether expressed or implied, for the service it is providing. The District will not be responsible for any damages the user suffers. This includes loss of data resulting from delays, non-deliveries, missed-deliveries, or service interruptions caused by its negligence or the user's errors or omissions. Use of any information obtained via the Internet is at the user's own risk. The District specifically denies any responsibility for the accuracy or quality of information obtained through its services.

Indemnification - The user agrees to indemnify the School District for any losses, costs, or damages, including reasonable attorney fees, incurred by the District relating to, or arising out of, any violation of these procedures.

Do not demonstrate the problem to other users. Keep your account and password confidential. Do not use another individual's account without written permission from that individual. Attempts to log-on to the network as a system administrator will result in cancellation of user privileges. Any user identified as a security risk may be denied access to the network.

Vandalism - Vandalism will result in cancellation of privileges and other disciplinary action. Vandalism is defined as any malicious attempt to harm or destroy data of another user, the Internet, or any other network. This includes, but is not limited to, the uploading or creation of computer viruses.

Telephone Charges - The District assumes no responsibility for any unauthorized charges or fees, including telephone charges, long-distance charges, per-minute surcharges, and/or equipment or line costs.

Copyright Web Publishing Rules - Copyright law and District policy prohibit the re-publishing of text or graphics found on the web or on District websites or file servers without explicit written permission.

- a. For each re-publication (on a website or file server) of a graphic or a text file that was produced externally, there must be a notice at the bottom of the page crediting the original producer and noting how and when permission was granted. If possible, the notice should also include the web address of the original source.
- b. Students and staff engaged in producing web pages must provide library media specialists with email or hard copy permissions before the web pages are published. Printed evidence of the status of “public domain” documents must be provided.

- d. The *fair use* rules governing student reports in classrooms are less stringent and permit limited use of graphics and text.
- e. Student work may only be published if there is written permission from both the parent/guardian and student.

- a. The District reserves the right to access and disclose the contents of any account on its system, without prior notice or permission from the account’s user. Unauthorized access by any student or staff member to an email account is strictly prohibited.
- b. Each person should use the same degree of care in drafting an email message as would be put into a written memorandum or document. Nothing should be transmitted in an email message that would be inappropriate in a letter or memorandum.
- c. Electronic messages transmitted via the School District’s Internet gateway carry with them an identification of the user’s Internet *domain*. This domain is a registered name and identifies the author as being with the School District. Great care should be taken, therefore, in the composition of such messages and how such messages might reflect on the name and reputation of the School District. Users will be held personally responsible for the content of any and all email messages transmitted to external recipients.
- d. Any message received from an unknown sender via the Internet should either be immediately deleted or forwarded to the system administrator. Downloading any file attached to any Internet-based message is prohibited unless the user is certain of that message’s authenticity and the nature of the file so transmitted.
- e. Use of the School District’s email system constitutes consent to these regulations.

Exhibit - Keeping Yourself and Your Kids Safe On Social Networks

For students:

- Put everything behind password protected walls, where only friends can see.
- Protect your password and make sure you really know who someone is before you allow them onto your friend's list.
- Blur or morph your photos a bit so they won't be abused by cyber bullies or predators.
- Don't post anything your parents, principal or a predator couldn't see.
- What you post online stays online - forever!!!! So ThinkB4U Click!
- Don't do or say anything online you wouldn't say offline.
- Protect your privacy and your friends' privacy too...get their okay before posting something about them or their pics online.
- Check what your friends are posting/saying about you. Even if you are careful, they may not be and may be putting you at risk.
- That cute 14-year old boy may not be cute, may not be 14 and may not be a boy! You never know!
- And, unless you're prepared to attach your blog to your college/job/internship/scholarship or sports team application...don't post it publicly!
- Stop, Block and Tell! (don't respond to any cyber bullying message, block the person sending it to you and tell a trusted adult).
- R-E-S-P-E-C-T! (use good netiquette and respect the feelings and bandwidth of others).
- Keep personal information private (the more information someone has about you, the more easily they can bully you).
- Google yourself! (conduct frequent searches for your own personal information online and set alerts ... to spot cyberbullying early).
- Take 5! (walk away from the computer for 5 minutes when something upsets you, so you don't do something you will later regret).

And for parents:

- Talk to your kids - ask questions (and then confirm to make sure they are telling you the truth!)
- Ask to see their profile page (for the first time)...tomorrow! (It gives them a chance to remove everything that isn't appropriate or safe...and it becomes a way to teach them what not to post instead of being a gotcha moment! Think of it as the loud announcement before walking downstairs to a teen party you're hosting.)
- Don't panic...there are ways of keeping your kids safe online. It's easier than you think!
- Be involved and work with others in your community. (Think about joining WiredSafety.org and help create a local cyber-neighborhood watch program in your community.)
- Remember what you did that your parents would have killed you had they known, when you were fifteen.
- This too will pass! Most kids really do use social networks just to communicate with their friends. Take a breath, gather your thoughts and get help when you need it. (You can reach out to WiredSafety.org.)
- It's not an invasion of their privacy if strangers can see it. There is a difference between reading their paper diary that is tucked away in their sock drawer...and reading their blog. One is between them and the paper it's written on; the other between them and 700 million people online!
- Don't believe everything you read online - especially if your teen posts it on her blog!

Notice to Parents/Guardians and Students

Rights Concerning a Student's School Records

The contact information for each School's Official Records Custodian is as follows:

Gina Sierra, Principal
Pennoyer Elementary School
5200 N. Cumberland Avenue
Norridge, IL 60706

This notice contains a description of your and your student's rights concerning school student records. A school student record is any writing or other recorded information concerning a student and by which a student may be identified individually that is maintained by a school or at its direction or by a school employee, regardless of how or where the information is stored, except for certain records kept in a staff member's sole possession; records maintained by law enforcement officers working in the school; video and other electronic recordings that are created in part for law enforcement, security, or safety reasons or purposes; and electronic recordings made on school buses. The District maintains two types of school records for each student: *permanent* record and *temporary* record.

The *permanent record* includes:

1. Basic identifying information, including the student's name and address, birth date and place, gender, and the names and addresses of the student's parent(s)/guardian(s).
2. Academic transcripts, including grades, class rank, graduation date, grade level achieved, scores on college entrance examinations, and the unique student identifier assigned and used by the Illinois State Board of Education's Student Information System .
3. Attendance record.
4. Health record defined by the Illinois State Board of Education as "medical documentation necessary for enrollment and proof of dental examinations, as may be required under Section 27-8.1 of the School Code."
5. Record of release of permanent record information that includes each of the following:
 - a. The nature and substance of the information released
 - b. The name and signature of the official records custodian releasing such information
 - c. The name and capacity of the requesting person and the purpose for the request
 - d. The date of release
 - e. A copy of any consent to a release.
6. Scores received on all State assessment tests administered at the high school level (that is, grades 9 through 12).

The *permanent record* may include:

1. Honors and awards received.
2. Information concerning participation in school-sponsored activities or athletics, or offices held in school-sponsored organizations.

All information not required to be kept in the student permanent record is kept in the student *temporary record* and must include:

1. Record of release of temporary record information that includes the same information as listed above for the record of release of permanent records.
2. Scores received on the State assessment tests administered in the elementary grade levels (that is, kindergarten through grade 8).
3. Completed home language survey.
4. Information regarding serious disciplinary infractions (that is, those involving drugs, weapons, or bodily harm to another) that resulted in expulsion, suspension, or the imposition of punishment or sanction.
5. A final finding report provided to the school by the Child Protective Service Unit pursuant to Section 8.6 of the Abused and Neglected Child Reporting Act. No report other than what is required under Section 8.6 of the Act shall be placed in the student record.
6. Health-related information, defined by the Illinois State Board of Education as “current documentation of a student’s health information, not otherwise governed by the Mental Health and Developmental Disabilities Confidentiality Act or other privacy laws, which includes identifying information, health history, results of mandated testing and screenings, medication dispensation records and logs (e.g., glucose readings), long-term medications administered during school hours, and other health-related information that is relevant to school participation, e.g., nursing services plan, failed screenings, yearly sports physical exams, interim health histories for sports.”
7. Accident report, defined by the Illinois State Board of Education as “documentation of any reportable student accident that results in an injury to a student, occurring on the way to or from school or on school grounds, at a school athletic event or when a student is participating in a school program or school-sponsored activity or on a school bus and that is severe enough to cause the student not to be in attendance for one-half day or more or requires medical treatment other than first aid. The accident report shall include identifying information, nature of injury, days lost, cause of injury, location of accident, medical treatment given to the student at the time of the accident, or whether the school nurse has referred the student for a medical evaluation, regardless of whether the parent, guardian or student (if 18 years or older) or an unaccompanied homeless youth ... has followed through on that request.”
8. Any documentation of a student’s transfer, including records indicating the school or school district to which the student transferred.

The temporary record may include:

1. Family background information.
2. Intelligence test scores, group and individual.
3. Aptitude test scores.
4. Reports of psychological evaluations, including information on intelligence, personality and academic information obtained through test administration, observation, or interviews
5. Elementary and secondary achievement level test results.
6. Participation in extracurricular activities, including any offices held in school-sponsored clubs or organizations.
7. Honors and awards received.
8. Teacher anecdotal records.
9. Other disciplinary information.
10. Special education records.
11. Records associated with plans developed under section 504 of the Rehabilitation Act of 1973.
12. Verified reports or information from non-educational persons, agencies, or organizations of clear relevance to the student’s education.

The Family Educational Rights and Privacy Act (FERPA) and the Illinois School Student Records Act afford parents/guardians and students 18 years of age and older (“eligible students”) certain rights with respect to the student’s school records. They are:

1. The right to inspect and copy the student’s education records upon request.

Requests will be granted within 10 school days after the District receives the request. The degree of access a student has to his or her records depends on the student’s age. Students younger than 18 years of age have the right to inspect and copy only their permanent record. Students 18 years of age or older have rights to access and copy both permanent and temporary records. Parents/guardians or students should submit to the Building Principal (or appropriate school official) a written request that identifies the records they wish to inspect. The Principal will make arrangements for access and notify the parent/guardian or student of the time and place where the records may be inspected. The District charges \$0.35 per page for copying but no one will be denied their right to copies of their records due to inability to pay this cost.

These rights are not available to any person against whom an order of protection has been entered concerning a student, in accordance with 105 ILCS 5/10-22.3c and 10/5a, and 750 ILCS 60/214(b)(15).

2. The right to request the amendment of the student’s education records that the parent/ guardian or eligible student believes are inaccurate, irrelevant, or improper.

Parents/guardians or eligible students may ask the District to amend a record that they believe is inaccurate, irrelevant, or improper. They should write the Building Principal, clearly identify the record they want changed, and specify the reason.

When a challenge is made at the time the student’s records are being forwarded to another school to which the student is transferring, there is no right to challenge: (1) academic grades, or (2) references to expulsions or out-of-school suspensions.

If the District decides not to amend the record as requested by the parent/guardian or eligible student, the District will notify the parent/guardian or eligible student of the decision and advise him or her of the right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent/guardian or eligible student when notified of the right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA or the Illinois School Student Records Act authorizes disclosure without consent.

Disclosure without consent is permitted to school officials with legitimate educational or administrative interests. A school official is:

- a person employed by the District as an administrator, supervisor, teacher, instructor, or support staff member (including health or medical staff and law enforcement unit personnel);
- a person serving on the School Board;
- a contractor or volunteer to whom the District has outsourced institutional services or functions that would otherwise be performed by school district employees, including a person or company with whom the District has contracted to perform a special task (such as an attorney, auditor, nurse, medical consultant, or therapist); or
- any parent/guardian or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

Individual board members do not have a right to see student records merely by virtue of their office unless they have a current demonstrable educational or administrative interest in the student and seeing his or her records would be in furtherance of the interest.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the District discloses education records without consent to officials of another school district in which a student has enrolled or intends to enroll, as well as to any person as specifically required by State or federal law. Before information is released to these individuals, the parents/guardians will receive prior

written notice of the nature and substance of the information, and an opportunity to inspect, copy, and challenge such records.

When a challenge is made at the time the student's records are being forwarded to another school to which the student is transferring, there is no right to challenge: (1) academic grades, or (2) references to expulsions or out-of-school suspensions.

Disclosure is also permitted without consent:

- To an employee or official of the State Board with current demonstrable educational or administrative interest in the student, in furtherance of such interest.
- To any person for the purpose of research, statistical reporting, or planning, provided that no student or parent/guardian can be identified.
- Pursuant to a court order.
- To juvenile authorities, when necessary for the discharge of their official duties, who request information prior to adjudication of the student and who certify in writing that the information will not be disclosed to any other party except as provided under law or order of court.
- Subject to regulations of the State Board, in connection with an emergency, to appropriate persons if the knowledge of such information is necessary to protect the health or safety of the student or other persons.
- To a governmental agency, or social service agency contracted by a governmental agency, in furtherance of an investigation of a student's school attendance pursuant to the compulsory student attendance laws.
- To SHOCAP committee members who fall within the meaning of "state and local officials and authorities."
- To the Department of Healthcare and Family Services in furtherance of the requirements of Section 2-3.131, 3-14.29, 10-28, or 34-18.26 of the School Code or Section 10 of the School Breakfast and Lunch Program Act.
- To the State Board or another State government agency or between or among State government agencies in order to evaluate or audit federal and State programs or perform research and planning, consistent with FERPA.

In addition, disclosure is permitted to any person with the prior specific dated written consent of the parent designating the person to whom the records may be released. At the time any such consent is requested or obtained, the parent has the right to inspect and copy such records, to challenge their contents in accordance with Section 7 of the Illinois School Student Records Act, and to limit any such consent to designated records or designated portions of the information contained therein.

4. The right to a copy of any school student record proposed to be destroyed or deleted.

The permanent record is maintained for at least 60 years after the student transfers, graduates, or permanently withdraws. The temporary record is maintained for at least 5 years after the student transfers, graduates, or permanently withdraws. Temporary records that may be of assistance to a student with a disability who graduates or permanently withdraws may, after 5 years, be transferred to the parent/guardian or to the student, if the student has succeeded to the rights of the parent/guardian. Student temporary records are reviewed every 4 years or upon a student's change in attendance centers, whichever occurs first.

5. The right to prohibit the release of directory information concerning the parent's/guardian's child.

Throughout the school year, the District may release directory information regarding students, limited to:

- Name;
- Address;
- Gender;
- Grade level;
- Birth date and place;
- Parent(s)/guardian(s)' names, addresses, electronic mail addresses, and telephone numbers;

Photographs, videos, or digital images used for informational or news-related purposes (whether by a media outlet or by the school) of a student participating in school or school-sponsored activities, organizations, and athletics that have appeared in school publications, such as yearbooks, newspapers, or sporting or fine arts programs;
Academic awards, degrees, and honors;
Information in relation to school-sponsored activities, organizations, and athletics;
Major field of study;
Period of attendance in school.

Any parent/guardian or eligible student may prohibit the release of any or all of the above directory information by delivering a written objection to the Building Principal within 30 days of the date of this notice. No directory information will be released within this time period, unless the parent/guardian or eligible student is specifically informed otherwise.

No photograph highlighting individual faces is allowed for commercial purposes, including solicitation, advertising, promotion or fundraising without the prior, specific, dated and written consent of the parent or student, as applicable; and no image on a school security video recording shall be designated as directory information.

- 6. The right contained in this statement: No person may condition the granting or withholding of any right, privilege or benefits or make as a condition of employment, credit, or insurance the securing by any individual of any information from a student's temporary record which such individual may obtain through the exercise of any right secured under the Illinois School Student Records Act.**
- 7. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA.**

The name and address of the Office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education

Notice to Parents/Guardians Regarding Section 504 Rights

Dear Parent/Guardian:

Re:Section 504 Rights

The Rehabilitation Act of 1973, commonly referred to as *Section 504*, is a nondiscrimination statute enacted by the U.S. Congress. The Act's purpose is to: (1) protect the rights of individuals with disabilities in programs and activities that receive federal financial assistance from the U.S. Dept. of Education (ED), and (2) assure that disabled students have educational opportunities and benefits equal to those provided to non-disabled students.

An eligible student under Section 504 is a student who: has a record of having, or is regarded as having, a *physical or mental impairment* which substantially limits a *major life activity* as defined by 34 C.F.R. §104.3.

This notice describes the rights assured by Section 504 to those disabled students who do not qualify under IDEA. The intent of this notice is to keep you fully informed concerning decisions about your student and to inform you of your rights if you disagree with any decisions in reference to Section 504.

Please keep this explanation for future reference.

Parents/Guardians and/or students have the right to:

1. Be informed by the School District of your rights and procedural safeguards under Section 504 in an understandable language. 34 C.F.R. Parts 104 and 300. The purpose of this notice is to advise parents/guardians and/or students of these rights. 23 Ill.Admin.Code §§226.500, 510 and 610.
2. An appropriate education designed to meet a student's individual educational needs as adequately as the needs of non-disabled students are met. 34 C.F.R. §104.33.
3. Free educational services except for those fees that are imposed on non-disabled students or their parents/guardians. Insurers and similar third parties are not relieved from an otherwise valid obligation to provide or pay for services provided to a disabled student. 34 C.F.R. §§104.33 and 300.14; 23 Ill. Admin Code §22.240.
4. A placement in the least restrictive environment. 34 C.F.R. §104.34.
5. Facilities, services, and activities that are comparable to those provided for non-disabled students. 34 C.F.R. §104.34.
6. An evaluation prior to an initial Section 504 placement and any subsequent significant change in placement. 34 C.F.R. §104.34.
7. Testing and other evaluation procedures conforming to the requirements of 34 C.F.R. §104.35 as to validation, administration, areas of evaluation, etc. The District shall consider information from a variety of sources, including aptitude and achievement tests, teacher recommendations, physical conditions, social and cultural background, adaptive behavior, physical or medical reports, student grades, progress reports, parent/guardian observations, anecdotal reports and standardized test scores. 34 C.F.R. §104.35; 23 Ill. Admin. Code §226.110.
8. Placement decisions made by a group of persons, i.e., a Section 504 committee, including the parent(s)/guardian(s) persons knowledgeable about the student, the meaning of the evaluation data,

the placement options and the legal requirements for the least restrictive environment and comparable facilities. 34 C.F.R. §§ 104.34 and 104.35.

9. Periodic reevaluations. 34 C.F.R. §104.35.
10. A notice prior to any action by the District in regard to the identification, evaluation, or placement of the student. 34 C.F.R. §104.36.
11. Examine relevant records. 34 C.F.R. §104.36.
12. An impartial due process hearing regarding the student's identification, evaluation or educational placement including an opportunity for parental participation in the hearing and representation by an attorney. 34 C.F.R. §104.36.
 - You must file a written *Parental Request for an Impartial Due Process Hearing* with the District Section 504 compliance coordinator or designee, if you disagree with the decision of the Section 504 committee. The request must be submitted to the District Section 504 compliance coordinator within 10 calendar days from the time you received the written notice of the District's Section 504 committee decision. The *Parental Request for an Impartial Due Process Hearing Officer*, is designed to assist parents in requesting an impartial due process hearing and is available online at: www.isbe.state.il.us/spec-ed/pdfs/dp_parental_19-86a.pdf.
 - The hearing will be scheduled before an impartial hearing officer and you will be notified in writing of the date, time, and place for the hearing. The hearing will conform to the requirements of 34 C.F.R. §300.512 and Section 14-8.02a of the School Code (105 ILCS 5/14-8.02a.). 34 C.F.R. §104.36; 23 Ill.Admin.Code §226.625. The impartial hearing officer shall issue a written decision, including findings of fact and conclusions of law, within 10 days after the conclusion of the hearing and send by certified mail a copy of the decision to the parents/guardians or student (if the student requests the hearing), the School District, the Director of Special Education, legal representatives of the parties, and the State Board of Education. 105 ILCS 5/14-8.02a(h).
13. A review by a court of competent jurisdiction of the impartial hearing officer's decision. 34 C.F.R. §104.36. Any appeal must be filed in a court of competent jurisdiction within 120 days after the impartial due process hearing officer's decision is mailed to the party. 105 ILCS 5/14-8.02a(i).
14. File a complaint with the District's Section 504 coordinator or designee concerning Section 504 matters other than your student's identification, evaluation and/or placement. The Section 504 coordinator or designee will investigate the allegations to the extent warranted by the nature of the complaint in an effort to reach a prompt and equitable resolution.

RE: Children's Online Privacy Protection Act

Dear Parent(s)/Guardian(s):

This letter is being sent as part of the District's continuing effort to educate parents and students about privacy protection and Internet use.

The Children's Online Privacy Protection Act gives parents control over what information websites can collect from their children. Many companies, however, are not providing information about what data a mobile app collects, who will have access to that data, and how it will be used. Allowing your child access to games and other seemingly harmless applications on a smartphone or computer risks his or her exposure to intrusive marketing and access to personal information.

A recent survey of apps for children by the Federal Trade Commission found that 10 percent of apps with social networking services did not disclose their presence; 17 percent of the apps allowed children to make purchases without parent/guardian consent; and 58 percent contained constant advertising, while less than 20 percent disclosed that advertising would appear.

The following suggestions may help keep children from being bombarded by unwanted advertising, from making unwanted purchases and from disclosing personal information and location:

- Be choosy about the applications that you let your child use. Try the app yourself to check for advertising messages and/or social networking and purchase options before allowing your child access.
- Select activities that do not require access to the Internet or an application, such as looking at family pictures or listening to pre selected music, screened and approved by you.
- Make certain that the ability to make purchases is password protected.
- Set up family rules and consequences explaining that all purchases made via a smartphone or computer must have parent/guardian consent.
- Caution children about the use of social networking and other sites and/or apps that can pinpoint locations.
- Monitor computer and smartphone use whenever and wherever possible.

Dear Parent(s)/Guardian(s):

If your child has an account on a *social networking website*, e.g., Facebook, Instagram, Twitter, ask.fm, etc., please be aware that State law requires school authorities to notify you that your child may be asked to provide his or her password for these accounts to school officials in certain circumstances. *Social networking website* means an Internet-based service that allows students to: (1) construct a public or semi-public profile within a bounded system created by the service; (2) create a list of other users with whom they share a connection within the system; and (3) view and navigate their list of connections and those made by others within the system.

School authorities may require a student or his or her parent/guardian to provide a password or other related account information in order to gain access to his/her account or profile on a social networking website if school authorities have reasonable cause to believe that a student's account on a social networking website contains evidence that a student has violated a school disciplinary rule or procedure.

Please contact the school if you have any questions.

Dear Parents/Guardians:

At our school, bullying of any kind, by any person, is unacceptable. All students should be free from worries about being bullied. Students who bully others must be taught other, appropriate ways of interacting with peers. The purpose of this letter is to provide you with information concerning the School District's anti-bullying program and to encourage you to help us identify students who are being bullied.

The School Board policy on bullying begins with this goals statement:

Bullying, intimidation, and harassment diminish a student's ability to learn and a school's ability to educate. Preventing students from engaging in these disruptive behaviors is an important District goal.

Bullying is defined as follows:

Bullying means any severe or pervasive physical or verbal act or conduct, including communications made in writing or electronically, directed toward a student that has or can be reasonably predicted to have the effect of one or more of the following:

1. Placing the student in reasonable fear of harm to the student's person or property.
2. Causing a substantially detrimental effect on the student's physical or mental health.
3. Substantially interfering with the student's academic performance.
4. Substantially interfering with the student's ability to participate in or benefit from the services, activities, or privileges provided by a school.

Bullying, intimidation, and/or harassment may take various forms, including without limitation: threats, stalking, physical violence, sexual harassment, theft, public humiliation, destruction of property, or retaliation for asserting or alleging an act of bullying.

I asked our school staff members to respond immediately and with compassion to a student who reports bullying or school violence. I also asked our staff members for their feedback and concerns specifically regarding locations that may be bullying *hot spots* needing additional supervision or monitoring or if there are any known bullies or targets of bullying in our building. I want to ask you to do the same thing. Please inform me if you know of any bullying *hot spots* in or around our school, or if you are aware of a known bully or target of bullying.

Finally, I requested our staff members to intervene immediately to stop a bullying incident. They will immediately contact building security and or law enforcement if the incident involves a weapon or other illegal activity.

Below are some of the signs that a young person is being bullied:

- Does not want to go to school and refuses to explain the reason
- Talks about not having any friends
- Has unexplained bruises, cuts, scratches, or abrasions
- Has unexplained damage to clothing, possessions, books, etc.

- Frequently loses money or possessions
- Loses interest in school and/or has declining grades
- Becomes withdrawn and/or has stress or depression symptoms

These signs do not necessarily mean your child is being bullied, but if present, ask your child whether he or she is being bullied.

Please let me know if you have any questions or concerns.

Sincerely,

Gina Sierra
Building Principal

Re: Eligibility and Meal Charge Notifications

The following notification is provided at the beginning of each school year as federally required notification regarding eligibility requirements and the application process for the free and reduced-price food services that are listed in Board policy 4:130, *Free and Reduced-Price Food Services* and 4:140, *Waiver of Student Fees*. For more information, see www.fns.usda.gov/school-meals/unpaid-meal-charges, and/or contact the Building Principal or designee.

Free and Reduced-Price Food Services Eligibility

When students are unable to pay for their meal services, meal charges will apply per a student's eligibility category and will be processed by the District accordingly.

A student's eligibility for free and reduced-price food services shall be determined by the income eligibility guidelines, family-size income standards, set annually by the U.S. Department of Agriculture, and distributed by the Illinois State Board of Education.

Meal Charges for Meals Provided by the District

The Building Principal and District staff will work jointly to prevent meal charges from accumulating. Every effort to collect all funds due to the District will be made on a regular basis and before the end of the school year. Contact your Building Principal or designee about whether your charges may be carried over at the end of the school year, i.e., beyond June 30th.

Unpaid meal charges are considered delinquent debt when payment is overdue as defined by Board policy 4:45, *Insufficient Fund Checks and Debt Recovery*. The District will make reasonable efforts to collect charges classified as delinquent debt.

When a student's funds are low or there is a negative balance, reminders will be provided to the staff, students, and their parent(s)/guardian(s) at regular intervals during the school year. If a parent/guardian regularly fails to provide meal money and does not qualify for free meal benefits, the Building Principal or designee, will direct the next course of action. Continual failure to provide meal money may require the District to notify the Ill. Dept. of Children and Family Services (DCFS) and/or take legal steps to recover the unpaid meal charges.

Sincerely,

Kristin A. Kopta, Ed.D

 - a. Alcohol, drug, or tobacco use;
 - b. Public displays of affection;
 - c. Abusive or foul language;

 - f. Stealing or other illegal actions.
5. Students are required to travel to and from events with team or sponsored group unless prior arrangements are made between parent and coach or sponsor.

TRANSPORTATION IN PRIVATE VEHICLES

Students are expected to travel to school sponsored activities by the transportation provided by the school unless otherwise approved by coach or sponsor.

PARENT/COACH/SPONSOR COMMUNICATION

Parent and Coach/Sponsor Relationship

The following guidelines are intended to spell out all levels of communications so that parents, coaches, sponsors, and athletes/participants are aware of the available avenues to answer questions or resolve issues.

Communications parents may expect from from coaches or activities sponsors

1. Philosophy of the coach/sponsor.
2. Expectations the coach/sponsor has for your son/daughter.
3. Locations and times of all activities, practices and contests.
4. Team/activity requirements.
5. Participation code of conduct and consequences for not following those guidelines.
6. Procedures to follow should your child become injured during participation.
7. Communication concerning your child's role in the activity/team.

Communications coaches/sponsors expect from parents

1. Concerns or questions should be addressed directly with the coach/sponsor first.
2. Notification of any schedule conflicts as soon as possible in advance.
3. Specific concerns in regards to a coach's/sponsor's philosophy and/or expectations.

As students become more involved with various sports and activities at school, they will experience some of the most rewarding moments of their lives. It is important to understand that there may be times when things do not go according to their wishes. At these times, discussion with coaches and sponsors may be the quickest and most effective way to clear up the issue and avoid misunderstanding.

Appropriate concerns for parents to discuss with coaches or sponsors

1. Your son's or daughter's health and welfare;
2. Ways to help your son or daughter improve;
3. Concerns about your son's or daughter's behavior.

At times it may be difficult to accept the fact your son or daughter is not playing as much as you or he or she would like, coaches make judgement decisions based on what they believe are best for the team and all involved. The school district recognizes the coach's authority and discretion to make the following decisions.

Decisions Made by Coaches/Sponsors

1. Team selection;
2. Playing time;

3. Team strategy;
4. Play calling;
5. Matters concerning other students/athletes

The best way to discuss a concern with a coach/sponsor

There are situations that may require a conference between the coach or sponsor, the athlete/participant, and the parent. These are to be encouraged. It is important that all parties have a clear understanding of the other person's role and position. When these conferences are necessary, the following procedures should be followed to help promote resolution to the issue or concern.

1. Your child should first talk with the coach or sponsor about his/her concerns.
2. Call the school to set up an appointment with the coach/sponsor.
3. If a coach/sponsor cannot be reached after a reasonable time, call the school's administration who will arrange an appointment for you.
4. Please do not approach a coach/sponsor before, during, or after a contest or practice. Coaches and sponsors have pre- and post-event responsibilities including student supervision. Meeting at these times usually does not work well for the coach or sponsor, the parent, or the student, and often further exacerbates the concern.

The next step: What can a parent do if the meeting with coach/sponsor did not provide a satisfactory resolution

1. Call and set up an appointment with a school administrator and the coach/sponsor.
2. At this meeting the appropriate next step can be determined as necessary.

Dear Parent/Guardian,

I believe teachers, administrators, parents, and students must work together to ensure a safe, happy learning environment for all. I believe the parents/guardians and community members of District 79 value and support the idea of a violence free school. I believe that the rules contained in this guide are necessary, reasonable, and effective. They reflect a positive approach. I believe in the goodness of our students and am willing to work with you, the parent/guardian, in helping your child develop a sense of responsibility for his/her behavior resulting in intellectual, social, and emotional growth and learning.

It is in your child's best interest that we work together. If you have any questions or concerns, please feel free to call or stop in to see me. I appreciate your understanding and cooperation. Thank you.

Sincerely,

Gina Sierra
Principal
