STAFF CODE OF CONDUCT

Purpose

The Board has adopted this policy with the intent of fostering learning and working environments that operate efficiently; are safe, ethical, and equitable for students and staff; and meet community expectations.

Application of Policy

All school district employees, including teachers, administrators, other contracted staff, and ancillary staff, are required to adhere to this policy.

Code of Conduct

All staff members are responsible for becoming familiar with and abiding by the laws of the state as they affect their work, professional codes of ethics associated with their licensure if applicable, the school district's policies and the regulations designed to implement them.

The Board may have adopted or may adopt additional conduct policies applicable to specific categories of employees (e.g., academic freedom standards for teachers). Such policies are also considered part of this code of conduct, and the Superintendent is charged with disseminating such policies using the policy dissemination procedure contained in this policy.

In addition to district policies governing staff conduct, each staff member is required to:

1. Conduct oneself professionally whenever serving in his/her official capacity as a school district employee including maintaining professional decorum and professional boundaries in all interactions with students.
2. Exercise honesty and integrity when executing all duties.
3. Comply with confidentiality laws (e.g., student education records are protected by FERPA).
4. Be faithful and prompt in attendance at work.
5. Support and enforce policies and regulations of the District
6. Diligently execute all duties as assigned by supervisors and as set forth in job descriptions, district policies, or the negotiated agreement; staff members are also required to fulfill the terms of their contracts if applicable.
7. Demonstrate care and conservation of school property and resources.
8. Make job-related decisions in a manner that is fair and consistent with district policy and the district's mission.
9. Not use his/her position with the District for private gain.
10. Treat all staff, students, and community members with dignity and respect.
11. Report suspected violations of this code of conduct, district policy, or workplace violations of law to an immediate supervisor or individual/entity designated by law/policy to receive such reports.

Dissemination of Staff Conduct Standards

The Superintendent or designee shall develop a procedure to ensure that this code of conduct and other policies governing staff conduct are provided to all staff annually. The Board further directs the Superintendent or designee to compile a list of state laws related to staff conduct and disseminate this information to staff annually. The Superintendent or designee also shall provide a copy of the Education Standards and Practices Board Code of Professional Conduct for Educators to teachers and administrators annually. Administration should require staff to acknowledge, in writing, receipt and understanding of all documents provided to them under this policy.

If a staff conduct policy contains specific policy dissemination procedures that are more comprehensive than the policy dissemination requirements contained herein, the more comprehensive policy dissemination procedures should be followed.

Reporting and Investigation

Any staff member who has reason to believe that this policy may have been violated is required to report the alleged violation to an immediate supervisor or individual/entity designated by law/policy to receive such reports as soon as possible. Students and community members who have reason to believe this policy has been violated are encouraged to report this to a building principal.

The reporter may submit a written or oral report of the alleged violation. The supervisor or administrator receiving the report should document the date and time that the report is received, nature of the alleged violation, name of the reporter (if choosing to identify him/herself), and names of any witnesses to the alleged violation if this information is not submitted by the reporter in writing.

The supervisor shall refer the report to the Superintendent as soon as possible for investigation and resolution. The Superintendent shall investigate the alleged violation in a timely manner not to exceed 60 days unless the Superintendent determines additional time is needed. The Superintendent shall issue a summary of the investigation's findings to the employee who is the subject of the investigation.

At any time during the investigation process, the Superintendent or designated investigator may refer the alleged violation to law enforcement if a violation of law is reasonably believed to have occurred and/or ESPB if a violation of the Code of Professional Conduct for Educators is reasonably believed to have occurred. Such referrals do not relieve the District of its responsibility to complete an internal investigation of the alleged violation.

If a staff conduct policy contains an investigation procedure that is in conflict with the investigation procedure contained herein, the most comprehensive investigation protocol of the two in conflict must be used to conduct the investigation.

Alleged Violations by the Superintendent

If the Superintendent is believed to have violated this policy, the alleged violation shall be reported to the Board President who is responsible for conducting the investigation and rendering a final decision on the outcome of the investigation in accordance with this policy. The Board President may retain an attorney or consultant to assist with the investigation process.

Violations

Violations of this policy shall result in appropriate disciplinary action as determined by the Superintendent. The superintendent's decision is final. If the violation is covered by another district policy on staff conduct (e.g., discrimination or harassment), any specific disciplinary consequences contained in that policy shall apply.

Retaliation and Providing False Information Prohibited

The District prohibits retaliation for an individual's participation in an investigation and/or initiation of a report under this policy, including instances when an allegation is not substantiated. The District also prohibits knowingly filing a false report and/or knowingly making false statements during an investigation. Staff and students who violate these prohibitions are subject to appropriate disciplinary action.

SICK LEAVE BANK

The Jamestown Public School District will maintain a Sick Leave Bank for participating employees . The purpose of the Sick Leave Bank is to cover unexpected catastrophic illness or injury to participants in the Sick Leave Bank, their spouses, and children.

The offer to join the Sick Leave Bank is a one-time offer. Sick Leave Bank shall be available to employees only upon their initial qualifying employment. A new employee will have thirty (30) days from the time of signing their initial contract to accept or reject membership in the Sick Leave Bank. The sick leave bank will provide coverage for all eligible employees (those also eligible for coverage in the District health insurance plan) of the Jamestown School District, and James Valley Career and Technology Center (JVCTC) who choose to participate in the district plan. Each participating employee shall invest 2 days in the bank. Whenever the

balance falls below 180 days, each member shall be assessed one (1) additional day, not to exceed (2) sick leave days in any single contract period. Unused sick leave bank days will accumulate to the next school term.

Any participant of the Sick Leave Bank may withdraw from the Bank at the end of a school year by giving written notice to the Sick Leave Bank Committee. Sick days invested in the bank will not be returned upon leaving the bank. Once a participant withdraws from the Bank, the participant is no longer eligible to rejoin the Bank.

c. Application

Any participant having used all of his(her) accumulated sick and personal leave days would be eligible to apply.

Application must be in writing by completing the Sick Leave Bank Application Form and shall be given to the sick leave bank committee for consideration. Applications must be accompanied by a medical doctor's certificate verifying the severity, nature and projected duration of the illness. If the illness or injury qualifies for employee disability coverage, the individual must apply for disability coverage. The Business Manager shall verify that an application for disability has been filed.

The application must request a specific number of days, up to forty (40) per application. A participant may apply two (2) times in any single contract period and may be granted no more than 80 days of sick leave from the Sick Leave Bank for that particular illness/injury.

No participant shall be eligible to withdraw more than a lifetime total of one hundred eighty (180) days. Participants may not draw sick leave days from the bank once they receive employer-related disability benefits.

The business manager will also serve on the committee, as an ex officio member with no voting rights. Members will serve a three-year term and all terms will begin on July 1.

The committee will meet within five (5) working days upon receipt of a request and a decision will be made at that time. They will review applications, give written notice of acceptance or rejection, determine the number of days granted to the applicant, provide reasonable assurance the bank is not abused, and prepare quarterly reports for the Superintendent. The right to confidentiality, both of the complaining party and the accused, will be respected consistent with the need to investigate and where necessary later corrective action.

A substantiated charge against a staff member in the school district will result in disciplinary actions up to and including termination.

FAMILY AND MEDICAL LEAVE ACT

The employee and District will follow the steps below to determine if a leave request falls under The Family and Medical Leave Act. The Family and Medical Leave Act are mandated by federal regulations and guidelines.

Step 1

Under normal conditions, employees must provide a written notice at least 30 days in advance, to the District of the date when a leave is to begin. If 30 days' notice is not practicable, then a verbal notice must be given within 2 business days of when the need becomes known to the employee.

Employees shall provide at least verbal notice sufficient to make the District aware that he or she needs a family and medical leave, and the anticipated timing and duration of the leave. Failure to give the required notice may result in a delay in granting the request leave until at least 30 days after the date the employee provides notice.

Step 2

Once the District is aware that an employee desires to apply for Family and Medical Leave, a meeting will be set up between the superintendent or his designee and the employee, to establish the circumstances involving the leave request which will be used to determine if the leave request falls under The Family and Medical Leave Act. Its implementing

regulations will guide the District's decision, in determining whether a leave request falls under family and medical leave.

Step 3

A written response will be provided to the employee whether the leave qualifies as a family and medical leave or not. If the leave qualifies under the Family and Medical Leave Act a written response will contain the leave's terms and procedures. The Family and Medical Leave Act and its implementing regulations will guide the District's response.

DRUG & ALCOHOL TESTING PROGRAM FOR EMPLOYEES

Definitions

For the purpose of this policy:

- *Drugs and controlled substances* are interchangeable and have the same meaning.
- *Controlled substance* refers to substances covered by the Omnibus Transportation Act, including but, not limited to, marijuana, cocaine, opiates, amphetamines and phencyclidine (PCP) (See 21 CFR part 1308).
- *Covered employee/position* means an employee/position subject to the Omnibus Transportation Employee Testing Act.
- *Safety-sensitive position* means a job in which a momentary lapse in the discharge of duties poses a safety threat with potentially severe consequences. In addition to covered positions, the board recognizes the following as safety-sensitive positions: school vehicle drivers as described in NDCC 15.1-07-20.

Statement of Philosophy

The Jamestown Public School District is committed to the establishment of a drug and alcohol testing program that meets all applicable requirements of the Omnibus Transportation Employee Testing Act. All covered and safety-sensitive employees are prohibited from using controlled substances and alcohol as stipulated in this policy.

Prohibitions and Hours of Compliance

Covered and safety sensitive employees are prohibited from using a controlled substance at all times unless use is at the instruction of a physician, and the physician has advised that use will not affect the employee's ability to perform safety-sensitive duties.

Covered and safety sensitive employees are prohibited from using alcohol while on duty, four hours prior to performing duties, and up to eight hours following an accident or until the employee performs a post-accident test (whichever occurs first).

No supervisor having actual knowledge that an employee covered by this policy has used a controlled substance or alcohol within prohibited hours shall permit the employee to perform or continue to perform safety-sensitive duties.

Notice of Medication Use

Employees covered by this policy shall notify the District any time they are using medication prescribed by a physician that could adversely affect performance of safety-sensitive duties. Employees shall not drive or perform other safety-sensitive duties at any time they have been advised by a physician that medication may or will adversely affect their ability to safely perform these duties.

Participation in Drug and Alcohol Testing Program Required

Employees serving in positions covered by this policy are required to participate in all applicable drug and alcohol testing as a condition of employment.

Circumstances for Testing

1. All covered employees shall be subject to pre-employment, reasonable suspicion, random, post-accident, return-to-duty and follow-up alcohol and drug testing pursuant to procedures set out in the federal regulations. Pre-employment controlled substance and alcohol testing shall be administered to an applicant offered a covered position in the District prior to the first time the employee performs any safety-sensitive duties for the District unless the applicant meets exemption criteria contained in federal regulations. Employment with the District is conditional upon the applicant receiving negative test results.

2. An individual applying for, transferring to, or being promoted to any safety-sensitive position shall initially be subject to controlled substance and alcohol testing. Verified positive test results shall prevent an applicant/employee from moving into a safety-sensitive position. School vehicle drivers shall also be subject to post-accident, reasonable suspicion and random testing. Non-transportation safety-sensitive positions shall be subject to post-accident and reasonable suspicion tests.
3. Transportation contracts approved by the District shall contain assurance that the contractor will establish or join a drug and alcohol testing program that meets the requirements of federal regulations and this policy and regulations and will actively enforce the regulations of this policy and regulations as well as federal requirements. An independent contractor who drives his/her own bus/vehicle is subject to the same requirements as the district's own employees.

Testing Procedures

Testing will be performed in accordance with federal drug and alcohol testing regulations and testing procedures are outlined in administrative regulations.

Refusal to Submit

An employee covered by this policy may not refuse to take a required test. Refusal includes tampering with, adulterating, or substituting a specimen for testing; inability to provide sufficient quantities of the substance being tested without a valid medical exemption; interfering with the collection procedure; not immediately reporting to the collection site; leaving the collection site before the collection process is complete; and/or leaving the scene of an accident without a valid reason before a drug and alcohol test has been conducted. Employees who refuse required testing will, at a minimum, be prohibited from performing safety-sensitive duties.

Violations

If the testing confirms prohibited alcohol concentration levels or the presence of a controlled substance, the employee shall be removed immediately from safety-related duties and may be subject to the disciplinary consequences contained in the Drug and Alcohol Free Workplace policy. Before an employee is reinstated, if at all, the employee shall comply with all applicable return-to-duty requirements, including evaluation, rehabilitation, and drug/alcohol testing requirements. An employee who is prohibited from performing safety-sensitive duties may be assigned to non safety-sensitive duties until such time as the employee complies with the requirements for returning to duty. The District will follow treatment referral procedures contained in federal regulations for covered employees.

Employees with verified alcohol concentrations below prohibited amounts shall be removed from safety-sensitive positions and may be subject to the disciplinary consequences contained in the Drug and Alcohol Free Workplace policy.

The District is not required to provide rehabilitation, pay for substance abuse treatment, or to reinstate the employee. The Board retains the authority consistent with law to discipline or discharge any employee who is an alcoholic or chemically dependent and whose current use of alcohol or drugs affect the qualifications for and performance of his/her job.

Confidentiality of Records

The District shall maintain records in compliance with law. Drug and alcohol testing records are confidential and shall be maintained in a secured location. An employee shall be entitled, upon written request, to obtain copies of any records pertaining to the employee's use of alcohol or controlled substances including information pertaining to alcohol or drug tests.

Records shall be made available to a subsequent employer upon receipt of a written request from an employee only as expressly authorized by the terms of the employee's request.

Necessary records and reports shall be maintained and made available to federal and state transportation agencies upon request in accordance with federal regulations.

Records from Former Employers

With the employee's consent and in accordance with 49 CFR 40.25, the District may obtain any information concerning drug and alcohol testing from the employee's previous employer.

Training

The District shall take steps to ensure that supervisors receive proper training to administer the drug and alcohol testing program.

Identity of Contact Person

The Board designates the Superintendent to serve as the contact person for questions concerning the drug and alcohol testing program and this policy. This designee may be reached at the District Office, 207 2nd Ave SE, Jamestown, ND or calling 701-252-1950.

Policy Dissemination

The Superintendent shall disseminate this policy and other educational material in accordance with federal law. Each employee subject to this policy shall certify in writing that s/he has received this material upon receipt. The Board designates the Superintendent as the individual responsible for answering questions related to this material.

Conflict Between Regulations and Federal Law And Regulations

RADON, LEAD, AND ASBESTOS MONITORING

Jamestown Public Schools monitors drinking water (Lead), Radon gas, and Asbestos. If EPA and/or State standards are not met, immediate corrective measures are done to correct the problem, and to insure a safe environment for students, parents, and staff.

USE OF BUILDINGS AND EQUIPMENT

Staff members are not permitted to schedule the use of any building or the loan of any equipment without authorization from the administration.

EMPLOYEE USE OF TIME

All staff should exhibit an atmosphere of professionalism at all times. The best way to convey this impression is to come to work on time with a wholesome attitude which includes organization, pride in your work, dependability and loyalty.

GENERAL ANNOUNCEMENTS AND SOLICITATIONS

Any announcement made for a school organization or for an organization outside of school life must have the approval of the school administrator or director in that building or be received by the teacher through the school administrator or director. It is likewise desirable that solicitation or sales of any type be conducted only after having received such approval. The intention is naturally to maintain a uniform policy throughout the system and to eliminate the excessive use of the schools as an advertising agency.

EXCUSING STUDENTS FROM THE BUILDING

The power to excuse students from the building rests entirely with the school administrators, directors and the district administrator. No teacher or secretary has the right to send students on errands off the premises or to excuse students from the buildings.

CORPORAL PUNISHMENT

North Dakota Century Codes 15.1-19-02 and 12.1-05-05 reads, Corporal Punishment is banned except for the following circumstances: to quell a physical disturbance, to quell a verbal disturbance, in self-defense, to preserve order, or in obtaining possession of a weapon.

The Jamestown Public School system does not endorse the use of corporal punishment. Teachers, ~~and/or~~ administrators, and/or other staff members who use corporal punishment may be subject to legal action for assault and battery. Such charges may be filed by parent(s)/legal guardian(s), considered as grounds for dismissal or such other action as recommended by the school board.

Prohibitions

No student will *knowingly* possess, handle, carry, or transmit any firearm or weapon on school property.

Disciplinary Consequences

Violation of this policy will result in disciplinary action up to and including suspension or expulsion. Bringing a weapon other than a firearm to school will require that proceedings for the suspension for up to 10 days and/or expulsion for up to 12 months be initiated immediately in accordance with the district's suspension and expulsion policy.

Bringing a firearm to school will require that the District immediately initiate proceedings for the expulsion of the student involved for a minimum of one calendar year in accordance with the district's suspension and expulsion policy. The Superintendent may modify the length of a firearms-related expulsion on a case-by-case basis based on the following criteria:

1. The totality of the circumstances, including the severity of the incident and the degree of endangerment of other students and staff.
2. The age and grade level of the student.
3. The prior disciplinary history of the student being expelled.
4. Relevant factors that contributed to the student's decision to possess a firearm in violation of this policy.
5. The recency and severity of prior acts resulting in suspension or expulsion.

7. Input, if any, provided by licensed professionals (psychologists, psychiatrists, counselors) as to whether or not the expelled student would place himself/herself or others at risk by returning to the school prior to the expiration of the expulsion period.

Parents will be notified and all weapons will be confiscated and may be turned over to the student's parents or to law enforcement officials at the discretion of the administration. Firearms will be confiscated and turned over to law enforcement.

Special Education Students

A student who is defined as having a disability under the Individuals with Disabilities Education Act (IDEA) who has brought a weapon to school shall be handled in accordance with IDEA regulations. The District shall make manifestation determinations, disciplinary decisions, and placement decisions of such students in accordance with IDEA regulations.

Nonapplicable Provisions

This policy does not apply to students enrolled and participating in a school-sponsored shooting sport, provided that the student informs the school principal of the student's participation and the student complies with all requirements set by the principal regarding the safe handling and storage of the firearm. The principal may allow authorized persons to display weapons, other dangerous objects or look-a-likes for educational purposes. Such a display will be exempt from this policy.

CONTAGIOUS DISEASES

Any student who, in the opinion of the teacher, shows symptoms of sickness should be sent to see the school nurse. If the nurse is not on duty, the student should be sent to the building principal who may make arrangements. However, do not send the student home until you have carefully investigated how far he/she lives from school. If the parents are not home, arrangements should be made for keeping the student in school until the parent comes home or comes to the school to pick up the student.

Students who have had or are suspected of having had a communicable disease are to be admitted after securing a permit from the family physician, school nurse, or city health officer. A special bulletin on health regulations will be issued to each instructor.

FIRST AID AND EMERGENCY CARE

The school is responsible for giving first aid or emergency treatment only in case of sudden illness or injury to a pupil or member of the staff. Further medical attention in the case of a pupil is the responsibility of the parent or guardian, or the person designated for emergencies; and, in the case of a member of the staff, or the particular individual.

Each principal will be charged with directing the immediate care of ill or injured persons who come within his/her area of responsibility.

At each school, procedures for the proper handling of such emergencies will be developed and made know to the staff. Procedures will incorporate the following requirements:

1. No treatment except first aid is permitted in schools. The school's responsibility is to place the ill or injured student in the care of the home or family physician as soon as possible.
2. Teachers or other trained persons, or bus drivers if the injury occurs on a school bus, will be responsible for administering first aid to students with minor injuries such as scratches, abrasions, bruises, etc.
3. A master first aid kit will be kept and properly maintained in each school and school bus.
4. No drugs will be administered by school personnel unless authorized by a physician.
5. **Parents will be asked to sign and submit an emergency medical authorization which will indicate the procedure they wish the school to follow in the event of a medical emergency involving their child.**
6. In all cases, where the nature of an illness or an injury appears serious, the parent or guardian will be contacted, if possible, and the instructions on the child's emergency card followed. In extreme emergencies, arrangements usually may be made for a child's immediate hospitalization whether or not the parent or guardian can be reached.
7. No young child who is ill or injured will be sent home alone. An older child will not be sent home unless the illness is major and the parent or guardian has been informed in advance.

DISPENSING MEDICINE TO STUDENTS

Administering Medicines to Students

(Adopted 8-4-2014)

The Jamestown Public School Board has established a program for providing medication to students that includes authorizing individuals to provide medication to a student if the individual has received education and training in medication administration and has received written consent of the student's parent or guardian. (NDCC 15.1-19-23)

Students who must depend on receiving prescription medication during school hours for medical reasons must have a written order from a physician, dentist, or other legally designated health care professional giving specific directions for taking the medication. Such written order may be the prescription label on the original pharmacy labeled container.

The administration of aspirin/Tylenol, or generic equivalents, at school is not approved without the prior consent of a parent or legal guardian. Other over-the-counter medication may be administered only with written consent of the parent or legal guardian.

Any medication, which is ordered to be administered at school, may only be given using procedures developed by the administration and approved by the board.

A student who has been diagnosed with asthma or anaphylaxis may possess and self-administer emergency medication for the treatment of such conditions provided the student's parent files with the school a document that is signed by the student's physician and which:

1. Indicates that the student has been instructed in self-administration of emergency medication for the treatment of asthma or anaphylaxis.
2. Lists the name, dosage, and frequency of all medication prescribed to the student for use in the treatment of the student's asthma or anaphylaxis; and
3. Includes guidelines for the treatment of the student in case of an asthmatic episode or anaphylaxis.

Neither a school district nor any employee of the district is liable for civil damages incurred by a student who administers emergency medication to himself or herself, or an individual because a student was permitted to possess emergency medication.

SYRINGES

Staff or students who are required to receive injections during the school day shall be responsible for self-administering the injections, or the injections shall be given by a qualified medical person. All persons requiring injections shall establish a safe-keeping plan for syringes with the building principal.

The building principal shall have final authority for determination where syringes may be stored or how they will be disposed of.

DO NOT RESUSCITATE (DNR) ORDERS

Jamestown Public School recognizes that parents and physicians have given thoughtful consideration to Do Not Resuscitate (DNR) orders. However, DNR orders put educators in a position of making medical decisions which places school personnel in a position of liability. Jamestown Public School District will follow the School Board's policy for notification of emergency personnel at any time that a student is in a life threatening situation, and will not honor a parent/legal guardian's DNR request. Parents presenting a DNR order will be requested to sign a written statement indicating they have been informed of the District's policy.

Procedures:

- A. Parents presenting a DNR order will be referred to the building administrator.
- B. Building administrator informs parent of district policy and provides a copy of the district policy to parents.
- C. Building administrator requests parent signature verifying receipt of the policy.
- D. Building administrator notifies District Administrator and provides a copy of the written documentation of parent contact.
- E. District Administrator sends a follow-up letter to parents via certified mail.
- F. Written documentation of the parent contract and follow-up letter will be placed in the student's cumulative folder.

- b. The principal will keep the form on record with the student's file and provide a copy to food service.
 - c. The principal will note any changes on a yearly basis and alert staff of the dietary needs/modifications and any medical precautions/training necessary.
 - d. At risk students should have some means of identification, such as a medical alert bracelet.
 - e. Most food-allergic children bring their lunch from home. However, guidelines established by the USDA Child Nutrition Division in charge of school lunches requires school food service staff to provide substitute meals to allergic students if the physician of the student sends written instructions certifying the child's allergy, what foods are to be avoided and safe substitutions.
 - f. A no-food trading policy will be enforced.
4. Parents will be encouraged to review/preview menus in order to select safe foods their child may eat.
 5. Consider the following avoidance strategies due to the fact that risk can never be fully eliminated in the school environment:
 - a. Parents should be encouraged to instruct their children in how to avoid contact with substances to which they are allergic.
 - b. Carefully monitor identified children, especially in the younger grades.
 - c. Allergic children should consider eating foods that are only prepared at home.
 - d. Students should be encouraged not to exchange foods or utensils with other students.
 - e. Surfaces, toys, and equipment should be washed clean of allergy containing foods.
 - f. Food personnel should be instructed about necessary measures required to prevent cross contamination during food handling, preparation and serving of food.
 - g. Check hand soap ingredients to be sure it does not contain peanut oils.
 - h. Establish a buddy system for identified students.
 - i. Provide staff updates at monthly faculty meetings.
 6. Provide training for staff in basic first aid, resuscitative techniques and in the use of epinephrine auto injections.
 7. Epinephrine should be kept in close proximity to students at risk of anaphylaxis, and in all cases where it is administered the student must be sent to the hospital immediately.

SIGNIFICANT INFECTIOUS DISEASE - STUDENTS

The Jamestown School Board shall follow the guidelines established by the state health department regarding the admittance of children, who are diagnosed as having significant infectious disease, such as Acquired Immune Deficiency Syndrome, AIDS Related Complex, Cytomegalovirus or Hepatitis B. The child's physician, upon learning that the child has a significant infectious disease, shall notify the local health officer and call for a meeting of the significant infectious disease committee to determine whether the child is eligible to be permitted to attend school.

The local board of health has the power and duty to adopt health and safety rules and regulations to include quarantine when an infectious and contagious disease exists under its' jurisdiction. North Dakota Century Code 23-07-16 and 23-05-01, subparagraphs 3 and 6.

SANITARY CLEANUP AND DISPOSAL

Hygienic procedures should be practiced by all school personnel when disposing of human secretions and excretions including blood, feces, semen, urine and vomit since they may contain infectious agents capable of spreading disease.

The steps listed below should be followed in all such cleanup situations since carriers of infectious or contagious diseases are often undetected. The procedures are not intended to replace basic common sense principles of health and hygiene.

1. Put on disposable gloves.
2. Sprinkle Fragra-Sorb or Rapid-Sorb on spill. Let it set until all fluid has been absorbed.
3. Using the spatula, scoop up the absorbed liquid and put it into a plastic bag.
4. Using a hand broom and dust pan, sweep up all traces of the Fragra-Sorb and Rapid-sorb and soil. Try not to create any dust.
5. Place the sweeping into a plastic bag. Make sure that the dust pan, spatula, and broom are cleaned thoroughly after each use. Use the spray bottle containing a mixture of 100-1 hilex and water for

6. Spray the 100-1 hilex solution on the contaminated area. Let set for 10 minutes, then wipe with absorbent towel. Place soiled towel in a plastic bag.
 7. Secure the opening of the plastic bag with the tie.
 8. Remove the disposable gloves and place the gloves and the sealed plastic bag into a second plastic bag. Secure with a tie.
 9. Wash hands with soap and water.
 10. Spray Lysol disinfectant on area to eliminate any lingering odor and as a final step in disinfection. Allow surface to air dry.
 11. Dispose of plastic bags into the dumpster immediately.
 12. If assisting a person with a bloody nose or wound, disposable gloves should be worn and the blood should be removed with disposable paper towels, gauze or rags. The exposed skin should be cleaned with an appropriate antiseptic (alcohol, iodine, etc.) and a leakproof dressing applied if appropriate.
 13. Scoops or implement to be reused should be washed and sprayed with disinfectant. After use, the cleansing materials, gloves and soiled diapers should be secured in plastic bags and disposed of in a specifically designated sanitary disposal site.
 14. When changing diapers, disposable gloves will be used. After use, the cleansing materials, gloves and soiled diapers will be secured in plastic bags, tied and disposed of in a sanitary disposal site.
 15. Soiled clothing or personal items will be bagged and sent home with the child, not cleaned or rinsed at the school.
 16. Using the following procedures, wash hands immediately after completing the cleaning and disinfecting process.
 - a. Wet hands and apply antiseptic soap.
 - b. Rub hands together vigorously for at least 15-30 seconds paying particular attention to finger tips, nails and jewelry.

STORM POLICY

The District Administrator has the exclusive right to call a storm day and, at his discretion, may start school late and/or dismiss school early. However, parents have the right to excuse their children from school attendance during inclement weather. Assignments may be made up without loss of credit.

On those occasions when school is cancelled because of inclement weather, the District Administrator may permit activities to be held.

When school is closed due to inclement weather, hourly paid teachers, teacher aides, and para-professionals will not be paid for their regular working hours. This also includes days closed when called by the Governor.
