Prevent. Promote. Protect.

Central Valley Health District

March 2019

ATTENTION: REQUIRED VACCINATIONS

The North Dakota Department of Health has updated its School Immunization Requirements. Students entering the 11th grade are required to receive a second dose of the *meningococcal conjugate* (MCV4) vaccine.

Students will need proof of two doses of MCV4 before returning to school in the fall. The first dose was required for 7th grade entry.

This event provides an opportunity for your child to receive all required and highly recommended immunizations. The clinic date:

Jamestown High School room 104
Wednesday March 20, 2019
8:00am-10:00am

This clinic is optional.

If you are uncertain of your child's immunization status, please contact your clinic or CVHD at 252-8130. For more information on the MCV4 vaccine, as well as other age appropriate immunizations, please visit the "[When Do Teens Need Vaccines?](http://bit.ly/2E2Z7CV)" (<http://bit.ly/2E2Z7CV>), and North Dakota Department of Health [2018-2019 School Immunization Requirements](http://bit.ly/2npovcC) (<http://bit.ly/2npovcC>).

If you wish to have your child vaccinated at this event, please complete the first page of the "Vaccine Administration Record Series" and return it to the high school office no later than **noon on Tuesday, March 19**. If you have health insurance, your insurance company will be billed. It is imperative that insurance information is filled out completely for proper billing. If your child does not have insurance coverage we do request that you send \$20.99 per vaccine to cover the cost of administration of the immunizations.

Thank you for your attention to this matter.
