

Dear parents & caregivers,

First and foremost, we hope you and your family are in good health. This unprecedented period of time created by Covid-19 is like no other we've faced in our lifetime. We are presented with so many new challenges to overcome; it can be overwhelming at times. Please know that we are here to support you, and together we will overcome this very challenging situation.

One major change to our student's lives due to Covid-19 has been the introduction to remote learning which has instantly become our primary means to educate our children. This is a new experience for students, parents and educators and we are continuously learning how to best service you and your children each day. We acknowledge the difficulties you or your child might have with this new learning environment and we will monitor and adjust to improve our practices as we receive feedback from you.

We all agree that there is nothing that compares to in-person learning 5 days a week, but unfortunately that is not possible under our current guidelines. With the introduction of Schoology, we are hopeful the exchange of learning materials and the delivery of content is more timely and accessible. The Schoology platform will take some time to adjust to but we feel it is a tool that will meet the needs of students attending school in a hybrid format and as a fully remote learner.

It is our desire to make this educational experience as seamless as possible and reduce any anxiety created by this event. Please call with any questions, concerns or feedback you might have. We value your feedback. We wish you and your family the best and look forward to the day we have your children back in school with us at full capacity.

Warmest Regards,

*Mr. Pritchard*
