Questions? Email SummerSchool@district90.org or call the District Office at 708-771-8282

9:00am-9:55am The following classes meet Monday through Friday at Willard Elementary School.

Grade(s)	Name of Class	Instructor
K	Kindergarten Korner (5 yrs old by Sept 1, 2018) Join us for an hour filled with stories, poems, songs, letters, numbers, calendar activities and hands-on fun. Skills will be embedded in a weekly theme! Come and join us to see what Kindergarten is all about!	Barb Garvey
K-1	Reading Adventures (5 yrs old by Sept. 1, 2018) This hands-on reading class incorporates literacy, art, and drama. We will use great stories as springboards for fun, developmentally appropriate activities that include art projects, singing, acting, and more!	Richard Taylor
1	Jump Into First Grade You are just going to love it! Come on in and take a peek at the wonderful world of first grade! We will begin to work on many skills that you will learn in the "World of One"! Reading, phonemic awareness, literacy skills, math, writing, science, social studies, and art! We'll also review Kindergarten skills, practice being a good listener, and work on following multi-step directions. Be prepared to enjoy many engaging and interesting learning activities! (Students do NOT need to be able to read to enroll in the class.)	Cathy Blaha
1-2	Coding Connections Moving beyond what has been done in STEM this year, students will continue to see patterns within coding while diving further into languages they have been working with this year. Students will create games and movies using Scratch Jr., as well as working with other coding programs.	Kim Kanofsky
1-4	Polymers and Potions In this class, your incoming 1st-4th grader will have the chance to explore, create, and discover! Each day, your child will have hands on experience as we make polymers, "potions," and take part in other experiments that will be sure to excite	Paul Forsyth

9:00am-9:55am The following classes meet Monday through Friday at Willard Elementary School.

Grade(s)	Name of Class	Instructor
2-4	Hands On Gardening Explore science, ecology, and art through tending Willard's Pollinator Garden. Student's will benefit from having real-life observation and exploration as they learn about the parts of plants, native pollinator's and their habitat needs. Student's will work side by side to weed, plant, water, and maintain out compost barrel in Willard's outdoor classroom. Dress accordingly.	Val Smart
2-4	iPhotography Say Cheese! iPhotography will explore the endless number of apps used in creating photos with style and flair. This class will bring out your inner photographer and challenge your creative tech skills. The possibilities are endless with the tech tools we have available today. Come! Let's play!	Andrea Costin
3-4	Kid Creations Students will have fun flexing their creative muscles! Together we will be using our imaginations to produce new and exciting projects. Beside creating our own individual creations we will also be collaborating to learn the value of others in the creative process. Throughout our session participants will use science to make art projects, technology to code and animate and our engineering skills while designing. Each Friday there will be a viewing party so we can share our projects with each other.	Amanda Zika
3-4	Games Galore! Do you like playing games like Sharks and Minnows and Steal the Bacon? Then this class is for you! We will be playing these games and more in the gym. Bring your gym shoes and be ready to have some fun!	Katie Nichols
1-2	Math Lab *Enrollment by invitation only – Password Required* This math lab will be filled with activities for small hands and lively minds needing extra support in mathematics. The children will participate in hands-on, concrete experiences that give them the opportunity to practice math skills, participate in hands-on interactive games, experiment with old and new concepts, and improve critical thinking skills. Join us and increase your excitement about math!	Katy Kennedy & Sue Saban
3-4	Math Lab *Enrollment by invitation only. Password Required* Children needing extra support in mathematics will participate in hands-on, concrete experiences that give them the opportunity to practice math skills, utilize manipulatives, participate in hands-on interactive games, experiment with old and new concepts, and improve critical thinking skills. Join us to expand, explore, and enjoy math!	Amy Driscoll & Janeice Millon
1-2	Reading Lab *Enrollment by invitation only – Password Required* Review and reinforce literacy skills in a fun and supportive environment! This reading lab will be filled with activities for our curious minds who have been receiving extra reading support throughout the school year. Each day, students will be actively engaged while working at literacy centers and participating in small group activities.	Peg Donnelly & Shana Joyce

9:00am-9:55am The following classes meet Monday through Friday at Willard Elementary School.

Grade(s)	Name of Class	Instructor
3-4	Reading Lab *Enrollment by invitation only – Password Required* Review and reinforce literacy skills in a fun and supportive environment! This reading lab will be filled with activities for our curious minds who have been receiving extra reading support throughout the school year. Each day, students will be actively engaged while working at literacy centers and participating in small group activities.	Kate Szostak
3-4	Writing Lab *Enrollment by invitation only – Password Required* Get ready to roll with your pencil and paper! Students who needed support throughout the school year will review and reinforce their writing skills in an engaging and supportive environment. This writing lab will be filled with fun activities focusing on improving writing skills and production. Students will work independently, in partnerships and in small groups, to complete a variety of tasks to deepen their understanding of the writing process.	Kelly Tanglao

10:00-10:55am The following classes meet Monday through Friday at Willard Elementary School.

10:00-10:55am The following classes meet Monday through Friday at Willard Elementary School.

Grade(s)	Name of Class	Instructor
1-2	Modern Artists Splatter paint like Jackson Pollock, apply geometry to art like Vasily Kandinsky, print like Andy Warhol, and create portraits in comic book style like Roy Lichtenstein. Come explore modern and contemporary artists this summer using various mediums and techniques such as printmaking, painting, and plaster sculptures.	Janeice Millon
1-4	Polymers and Potions In this class, your incoming 1st-4th grader will have the chance to explore, create, and discover! Each day, your child will have hands on experience as we make polymers, "potions," and take part in other experiments that will be sure to excite!	Paul Forsyth
3-4	Kids Actor Guild Do you have a talent for acting? Do you love pretending to be different characters? If so, then please come join us in our Reader's Theatre class! We will spend time learning and practicing how to be performers! We will learn the importance of fluency while having fun creating our own props and production. We will share our performances with our families and classmates at the end of our session together. Come and share your love of the theatre!	Amanda Zika
3-4	Coding Connections Moving beyond what has been done in STEM this year, students will continue to see patterns within coding while diving further into languages they have been working with this year. Students will create games and movies using Scratch Jr., as well as working with other coding programs.	Kim Kanofsky
3-4	Star Wars Do you have ideas for the next Star Wars movie? Are you more of a Jedi or a Sith? Have you ever wanted to change the endings of the movies? Let's get together to build, write, draw, read, and talk about Star Wars! **If you took this class last year, don't worry! This will be new material.	Sarah Lim
3-4	Summer Green Team! During the school year Willard's Green Team is a volunteer student group that creates an opportunity within our school to reduce waste of all kinds. Come join this summer class as we continue our recycled materials art installations. We will also focus our efforts to promote "green" habits with posters and bulletin boards to encourage students and staff to go green!	Val Smart
1-2	Math Lab *Enrollment by invitation only – Password Required* This math lab will be filled with activities for small hands and lively minds needing extra support in mathematics. The children will participate in hands-on, concrete experiences that give them the opportunity to practice math skills, participate in hands-on interactive games, experiment with old and new concepts, and improve critical thinking skills. Join us and increase your excitement about math!	Sue Saban & Katy Kennedy

11:00-11:55am The following classes meet Monday through Friday at Willard Elementary School.

Grade(s)	Name of Class	Instructor
K	Real Life Math (5 yrs old by Sept 1, 2018) A hands-on class dealing with math we use in our everyday lives, such as: measuring, counting, patterns, matching, looking at clocks, calendar, board games and leapfrog games that will help students get ready for math in kindergarten. FUN, FUN, FUN for everyone!	Cathy Blaha
K-2	Game On! (5 yrs old by Sept. 1, 2018) Students have fun playing board and card games, while they learn logic, strategy, math and sportsmanship. Some of the games that are included are checkers, Monopoly, Battleship, Rummikub, Yahtzee and many others. Students are also invited to bring their favorite games and share their expertise!	Barb Garvey

11:00-11:55am The following classes meet Monday through Friday at Willard Elementary School.

1-2	Kid Creations Students will have fun flexing their creative muscles! Together we will be using our imaginations to produce new and exciting projects. Beside creating our own individual creations we will also be collaborating to learn the value of others in the creative process. Throughout our session participants will use science to make art projects, technology to code and animate and our engineering skills while designing. Each Friday there will be a viewing party so we can share our projects with each other.	Amanda Zika
1-2	Music Playground 1st and 2nd graders are invited to come play with music through songs, stories, games and movement. The class will explore music from around the world while the children work creatively with each other building friendships through song.	Paul Forsyth
1-2	Star Wars Do you have ideas for the next Star Wars movie? Are you more of a Jedi or a Sith? Have you ever wanted to change the endings of the movies? Let's get together to build, write, draw, read, and talk about Star Wars! **If you took this class last year, don't worry! This will be new material.	Sarah Lim
2-3	All Around the World Passports please! This flight is for the All Around the World Tour. Look over there! I've never seen a bird with those beautiful colors. Hey what's that? Is that really what they eat? These are just a few things we hear and read about as we visit countries and learn about the people that live there, animals, music, etc. We will make fun crafts, read, and write about our learning. Pack your luggage and hop aboard this summer!	Richard Taylor
3-4	Clay Around the World Take a trip around the world visiting countries and creating projects inspired by various cultures such as Egyptian, European, African and much more. Each project will be accompanied by a clay project. Get your passport ready for fun travels this summer!	Janeice Millon
3-4	Creative Writing Do you like to be creative and use your imagination? Do you like the idea of painting with words? Creating stories and poems? Then this creative writing class is for you! You will be given a composition book to keep all your creative writing in. You will have the opportunity to write using colorful tools. Join us for a fun, creative way to write!	Katie Nichols
3-4	I'm an Actor! Calling all actors! Get ready to read, act and show off your talents! You will improve your reading fluency in a creative way! Have fun performing several scripts, making props, and so much more!	Andrea Costin
3-4	STEAM Build, grow, connect, create and observe this summer with this fun, interactive class where art meets science and math! Engage critical thinking and problem solving skills with hands-on projects. Projects will be varied including clay, painting, and mixed media.	Kim Kanofsky
