GENERAL GUIDELINES:

All 4th-12th grade students at Bremen Public Schools are issued a device for their educational use. It is our belief that if reasonable precautions and care are taken in the use of the device, the device should not experience physical damage. Each student and parent is asked to read this document carefully. Once completed with reviewing the document, the student and parent/guardian should sign on the last page indicating their understanding of the guidelines and procedures that will be in place for the use of the electronic devices.

Where does my son/daughter go if technical support is needed?

- If the problem originates while in class, the student should report all issues to his/her teacher. The teacher will then refer them to the Technology Department (K-8 Building). High school students will be referred to the Technology Help Desk located in the Media Center.
- If the problem originates at home or when not in class, the student should report all issues to the Technology Department (K-8 Building). High school students will be referred to the Technology Help Desk located in the Media Center. (High School Students), If the Technology Help Desk is not available or closed at the time of the problem, you should report all incidents at the next available time that the help desk is open.
- All technical or mechanical issues with the device must be reported immediately to school personnel, preferably the technical support team located in the Technology Department (K-8 students)/Media Center (HS students). If a student fails to report it immediately, it may result in additional damage and an increased responsibility on the student for such damages.

Additional Device Scenarios to Remember:

- If a student leaves his/her device at home, he/she will be asked to call home and have a parent bring the device to the school. If this scenario is not possible, he/she may be issued a loaner device, if available, for the remainder of the school day. (Repeated violations will result in disciplinary action as set out herein.)
- If a student has his/her device confiscated for any period of time, he/she will be issued a loaner device on a day-by-day basis, but only while at school.
- If a student's device is undergoing repair, the school will issue a loaner device to the student during this period of time.
- Students will have access to a personal file "H-Drive" on the Bremen Public School network. The content saved in the school-designated folder shall be specific to education. The space allowed

in this file is limited and is subject to review at any time. Items deemed as unnecessary for education will be deleted following a conversation with the student. Unnecessary items include, but are not limited to media files, mp3/music, and pictures. If any material is found and considered inappropriate, not only will the material be deleted, but also disciplinary action could be taken as set out herein.

- The software originally installed on the devices must remain on them in usable condition and be easily accessible at all times. From time to time, the school may add software applications for use in a particular course. Some licenses for this software require that the software be deleted from devices at the completion of the course. If deletion is required, students will be informed and periodic checks of devices will be made to ensure that software is in fact deleted once it is no longer required in the course. This is done to ensure that the school does not exceed license limitations for specific software.
- Students are not allowed to install software on their devices other than what is installed by Bremen Public Schools. This includes, but is not limited to, applications such as music downloading utilities, other media downloading utilities, and games. Unless directed by a teacher for a specific purpose for a class.
- Students may be selected at random to provide their device for inspection. Students may also be selected for inspection of their device if a staff member suspects that inappropriate material resides on the device or the student has violated the Bremen Public Schools Responsible Use Agreement and Contract.
- When devices are not in use during the school day, they should be stored in the approved carrying case and in the student-issued locker. Students should not place other items on the devices while they are in the locker and need to be taken home each night after school or extracurricular events.
- Students will no longer have the option to “set” their lockers. In order to keep the students’ devices and other personal items safe, students are prohibited from “setting” their lockers.
- If a student is participating in an extra-curricular event after school hours and does not have the opportunity to take the device home or secure it in a safe place, he or she will be able to keep the device secured in their school issued locker until the conclusion of the event. The school hallways will be accessible late enough to accommodate students needing to retrieve their devices.
